From: Brett F. Gonsalves, Senior Engineer
Date: April 25, 2017
Subject: **Russo Estates Status Update**
Previous Memo Dated March 28, 2017
Previous Memo Dated February 14, 2017

As per your request, this office conducted a site visit at the above subdivision.

At present, it appears that the site contractor is preparing to install an underground infiltration unit between lots 2 and 3. Additionally the contractor is using a conveyor to sort material that is stored on site.

Siltation controls are still intact, however, we have not received any report on the condition of the infiltration basin that was requested by the board.

I trust this information will suffice your needs. If you have any questions concerning this information, do not hesitate to contact this office
