12-14B Temporary repairs to private ways

A. General.

In accordance with Massachusetts General Law Chapter 40 Section 6N, and as the same may be amended, the City Council may authorize temporary repairs to be made to private ways, in accordance with this Ordinance.

B. Type of Repairs.

The repairs may include, but not are limited to: filling, grading, patching and surface coating, and may include repairs to drainage swales, conduits, systems and structures as are necessary to preserve the roadway. All repairs must be determined by the City Engineer and Superintendent of Public Works to be required for public health, safety, or welfare.

C. Petition.

The City Council may make a determination on the need for said repairs, and may authorize the making of said repairs, with or without a petition of abutter(s) to the private way. Such determination, as well as any determination to assess Betterment Charges, as set forth hereafter, shall only be made after a hearing duly called and scheduled, notice of which is published in a newspaper of general circulation in the City at seven days prior thereto, and of which written notice is mailed to record owners abutting said way, as determined from Assessors records. The cost of publication and mailing shall be paid by or assessed to the petitioners, if any, and in the absence of any petition, may be added to the Betterment Charges, if any be assessed by the Council pursuant to Section D, below. The City Council may establish, by Rule or Regulation, filing fees and procedures not inconsistent herewith for the processing and hearing of any such petition for temporary repairs.

D. Betterment Charges.

Betterment charges may be assessed by the City Council on the abutter(s) of such way up to an amount equal to the cost of such repairs. If betterments are to be assessed, they shall be assessed upon each parcel of land benefiting from such repair in proportion to linear frontage on the portion of the way to be improved or other proportional method as may be approved by the City Council.

Betterments shall be apportioned over such a period as the City Council deems appropriate, after considering such matters as the estimated useful life of the proposed repairs and the source of funds to be used for the same.

E. Deposit.

The Superintendent of Public Works may require a cash deposit up to the amount of the estimated cost of such repairs, as determined by the City Engineer and said Superintendent of Public Works, to be paid to the City prior to the commencement of such repairs. The Superintendent may use any appropriate collection process deemed necessary in collecting such deposit from the abutter(s). The Superintendent, with the approval of the Mayor, may enter into contracts on behalf of the City with abutters or associations of abutters providing for other methods of payment for such repairs by

abutters, upon such terms as the Superintendent, with the approval of the Mayor deems reasonable.

F. Status of Way.

This Ordinance does not confer any obligation or duty on the City or its agents to either initially place or to thereafter maintain and repair said private ways so that they are reasonably safe and convenient for travel by being free from defects or want of repair. The making of any such temporary or necessary repairs to private ways, no matter how often or to what extent, does not constitute an acceptance by the City of such ways as public ways, nor does it constitute a way being “maintained and used as a public way” under the Massachusetts Subdivision Control Law.

G. Liability.

It is intended that the City shall have no liability as a result of any such repairs, and no repairs to a private way shall be undertaken until the City Council has determined that satisfactory arrangements have been made to appropriately reduce or eliminate any liability to the City arising from the same. Such arrangements may include, but are not necessarily limited to, the provision of insurance by repair contractors and/or by abutters or associations of abutters insuring the City’s interests or the provision of suitable indemnity agreements by abutters or by associations of abutters.

H. Indemnity Agreement.

The indemnity agreement contemplated by Section G, above, shall indemnify and hold the City harmless from additional damage and claims arising from repairs undertaken hereunder, shall provide that the making of such repairs does not constitute a commitment by the City, express or implied, to provide any maintenance or repair to the way in the future, and shall provide that the making of such repairs shall not constitute “maintenance” of such ways so as to give the way the status of a way “maintained and used as a public way” under the Massachusetts Subdivision Control Law.

(added 6/3/2010)
