G. Above said subgrade and to finished grade good binding gravel or broken stone shall be used. Both the roadway and sidewalks shall be well wetted and rolled. A street may be accepted as a public street of said city before being finished above the subgrade provided the owner or owners pay into the city treasury a sum sufficient to complete the street after the installation of sewer or water pipes, said sum to be determined by the city engineer, or the owner or owners may give to the city treasurer security to his satisfaction for said amount. If within thirty days after the city installs said sewer or water pipes, the owner or owners fail to complete said street to the satisfaction of the city engineer, the superintendent of streets shall proceed to complete said street and the cost thereof shall be paid from the amount deposited by said owner or owners, or collected against the security so deposited.

H. All corners of intersecting streets shall be rounded as approved by said city engineer, and granite bounds shall be set at all angles and curves by the owners, at their own expense, before being accepted. (Prior Chapter 24 , sec. 11).

(added 8/27/2001)

12-14B Temporary repairs to private ways

A. General.

In accordance with Massachusetts General Law Chapter 40 Section 6N, and as the same may be amended, the City Council may authorize temporary repairs to be made to private ways, in accordance with this Ordinance.

B. Type of Repairs.

The repairs may include, but not are limited to: filling, grading, patching and surface coating, and may include repairs to drainage swales, conduits, systems and structures as are necessary to preserve the roadway. All repairs must be determined by the City Engineer and Superintendent of Public Works to be required for public health, safety, or welfare.

C. Petition.

The City Council may make a determination on the need for said repairs, and may authorize the making of said repairs, with or without a petition of abutter(s) to the private way. Such determination, as well as any determination to assess Betterment Charges, as set forth hereafter, shall only be made after a hearing duly called and scheduled, notice of which is published in a newspaper of general circulation in the City at seven days prior thereto, and of which written notice is mailed to record owners abutting said way, as determined from Assessors records. The cost of publication and mailing shall be paid by or assessed to the petitioners, if any, and in the absence of any petition, may be added to the Betterment Charges, if any be assessed by the Council pursuant to Section D, below. The City Council may establish, by Rule or Regulation, filing fees and procedures not inconsistent herewith for the processing and hearing of any such petition for temporary repairs.

D. Betterment Charges.

Betterment charges may be assessed by the City Council on the abutter(s) of such way up to an amount equal to the cost of such repairs. If betterments are to be assessed, they shall be assessed upon each parcel of land benefiting from such repair in proportion to linear frontage on the portion of the way to be improved or other proportional method as may be approved by the City Council.

Betterments shall be apportioned over such a period as the City Council deems appropriate, after considering such matters as the estimated useful life of the proposed repairs and the source of funds to be used for the same.

E. Deposit.

The Superintendent of Public Works may require a cash deposit up to the amount of the estimated cost of such repairs, as determined by the City Engineer and said Superintendent of Public Works, to be paid to the City prior to the commencement of such repairs. The Superintendent may use any appropriate collection process deemed necessary in collecting such deposit from the abutter(s). The Superintendent, with the approval of the Mayor, may enter into contracts on behalf of the City with abutters or associations of abutters providing for other methods of payment for such repairs by

abutters, upon such terms as the Superintendent, with the approval of the Mayor deems reasonable.

F. Status of Way.

This Ordinance does not confer any obligation or duty on the City or its agents to either initially place or to thereafter maintain and repair said private ways so that they are reasonably safe and convenient for travel by being free from defects or want of repair. The making of any such temporary or necessary repairs to private ways, no matter how often or to what extent, does not constitute an acceptance by the City of such ways as public ways, nor does it constitute a way being "maintained and used as a public way" under the Massachusetts Subdivision Control Law.

G. Liability.

It is intended that the City shall have no liability as a result of any such repairs, and no repairs to a private way shall be undertaken until the City Council has determined that satisfactory arrangements have been made to appropriately reduce or eliminate any liability to the City arising from the same. Such arrangements may include, but are not necessarily limited to, the provision of insurance by repair contractors and/or by abutters or associations of abutters insuring the City's interests or the provision of suitable indemnity agreements by abutters or by associations of abutters.

H. Indemnity Agreement.

The indemnity agreement contemplated by Section G, above, shall indemnify and hold the City harmless from additional damage and claims arising from repairs undertaken hereunder, shall provide that the making of such repairs does not constitute a commitment by the City, express or implied, to provide any maintenance or repair to the way in the future, and shall provide that the making of such repairs shall not constitute "maintenance" of such ways so as to give the way the status of a way "maintained and used as a public way" under the Massachusetts Subdivision Control Law.

(added 6/3/2010)

Properties with even numbered street addresses shall have their water meters calibrated in even numbered years and properties with odd numbered street addresses shall be calibrated in odd numbered years, beginning in 2006.

13.2.22 Stopped Meters.

On services subject to metered water, meters, which have stopped, must be replaced within sixty days. If due to various and unforeseen circumstances this

is not possible, charges for water usage will be estimated on usage for the previous six months.

13.2.23 Owner's Responsibility.

Owners shall be responsible for all water supplied to their premises. When water shall be supplied to more than one owner through a single service, in case of nonpayment or regulation violations by any taker of the service the water may be shut off and shall not be let on again, except on payment of two hundred and fifty dollars and all chargeable rates, notwithstanding one or more takers may have paid their bills. The superintendent may declare any payment made for the water by the person committing a violation to be forfeited and it shall be forfeited.

All persons using water for building or construction purposes are required before taking water from any faucet or fixtures connected with the water supply to obtain a permit in writing from the Superintendent of Public Works or his authorized agent. All water takers are prohibited from allowing any person to take water from their premises until they show such a permit. Any person furnishing water in violation of this section will be subject to a fine of five hundred dollars and if the same when levied is not paid within three days from the time when notice thereof is given, the water shall be shut off from the premises and will not be let on again until such fine is paid, together with the sum of two hundred and fifty dollars for shutting off and letting on the water.

13.2.26 Operation of Fire Hydrants.

No person or persons shall in any case be allowed to open any fire hydrant, except by a written permit from the Superintendent of Public Works. The Superintendent is responsible for the proper operation and mechanical maintenance of all hydrants; however, the chief engineer of the fire department shall in all cases have control of hydrants at fires and at practices. He shall notify the Superintendent when hydrants have been opened and which hydrants are found to be defective.

13.2.27 Water for Power Purposes.

All elevators, motors, or other hydraulic power plants shall be supplied by meter and paid for by meter rates. The Superintendent of Public Works shall have the right to refuse to supply water for power purposes when, in his opinion, the interest of the City demands such action.

13.2.28 Water for Cooling Purposes.

The potable water supply of the City shall not be used for cooling or air-conditioning or like use but can only be used as makeup supply for these systems. (C.23.1973). Any unit requiring water for cooling, refrigerating or air-conditioning purposes shall be equipped with a recirculation system. All persons or businesses who neglect to conform to this regulation shall be subject to a fine of 100 dollars per day until the violation is abated.

13.2.29 Water Waste.

The Superintendent and his agents and the City shall not be liable for any damage to such shutting off.

13.2.32 Reserved.

13.2.33 Cross Connection Control.

A. Cross Connection Control Authority. Under Public Law 93-523, the Safe

Drinking Water Act of 1974, and Massachusetts Regulation 310 CMR, Section 22.22: Cross Connections, a water purveyor has the primary responsibility for preventing water from unapproved sources from entering the public water system.

B. Cross Connection Control – General Policy.

1. Purpose

The purpose of this regulation is:

To protect the public potable water supply in the area served by the City of Woburn from the possibility of contamination or pollution by isolating within its customer's internal distribution system, such contaminants or pollutants which could backflow or back-siphon into the public water supply system; and

To promote the elimination or control of existing cross connections between the City's potable water system and non-potable systems, plumbing fixtures or industrial piping; and

To provide a continuing program of cross connection control which will systematically and effectively prevent cross connection contamination through survey, inspection and testing.

2. Responsibility

The Woburn Department of Public Works shall have the authority to oversee and enforce the Cross Connection Control Program.

The Department of Public Works shall be responsible for the protection of the public distribution system from contamination or pollution due to the backflow or back siphonage of contaminants through water service connections. If, in the judgment of the Department of Public Works a backflow prevention device is needed for the safety of the water system, the Department or its designated agent shall give notice in writing to the appropriate Owner to install an approved backflow prevention device at each service connection to his premises and/or on a particular process within the facility.

The Owner shall be responsible for maintaining his water system in a manner which will not cause a hazard to other users of the potable water system by either eliminating cross connections or properly installing a backflow prevention device in conformance with this bylaw. Once directed, the Owner shall install such approved device at his own expense, and failure,

refusal or inability on the part of the Owner to install said device within the allowable time, shall constitute a ground for disconnecting water service to the premises until such device has been property installed. The maximum time allowed for the installation of a required device is outlined in Section C of this bylaw.

All administrative costs associated with the operation of the City of Woburn Cross Connection Control Program will be supported by a fee for submittals on survey results, plan approvals, testing results, and permitting of testable devices. The Woburn City Council reserves the right to set ALL fees require for the implementation and operation of a successful cross connection control program.

All costs associated with the mandated cross connection control survey are the direct responsibility of the Owner of the premises being surveyed and/or the individual(s) leasing or renting such property. In the absence of clearly assigned responsibility the Owner of the premises shall be held responsible.

C. Requirements

1. Survey

The Department of Public Works shall perform a system wide cross connection survey of all industrial, commercial and institutional facilities who receive potable water from the City of Woburn. The Department may also inspect any residential housing units, which the Department deems suitable for survey for possible cross connections. Fee for the facility survey shall be paid by the Owner.

For system wide survey conditions, the Department will send written notice to the Owner stating the specific day and time of the site visit. If the specified time is not acceptable to the Owner, he must immediately call the Department of Public Works to schedule another time within five (5) working days of the first notice. The Owner must be available and ready at the agreed time or a fee may be charged to the Owner for every missed appointment.

The Owner must have a representative available at the specified time to remain with the surveyor throughout the site visit. This representative must be familiar with the layout and operation of the facility as well as being knowledgeable of the internal private water system.

During the survey, authorized representatives of the Department of Public Works will determine whether cross connections or sanitary hazards exist.

When such a condition becomes known, the Department shall send written notice to the Owner within five (5) days of the determination. Such notice will direct the Owner to install an approved backflow prevention device commensurate with the degree of hazard. The Owner will be directed to install the device at the location where it will provide the greatest protection to other potable water users; these users being either at the same facility or throughout the distribution system. All expenses relating to the design, purchase and installation shall be borne by the Owner.

All decisions relating to determination of backflow will be made by the Department of Public Works or its designated representative. Failure to comply with any directive from this office will result in termination of water service.

Once directed, the Owner shall install such approved device at his own expense, and failure, refusal or inability on the part of the Owner to install said device within the following time schedule, shall constitute a ground for disconnecting water service to the premises until such device has been property installed.

For backflow prevention devices up to two (2) inches, the maximum time for approved installation is thirty (30) calendar days.

For backflow prevention devices two (2) inches and larger, the maximum time for approved installation is sixty (60) days or as designated by the Department of Public Works.

In the event that an extension of time is required to plan and install the device, the customer shall file a written request to the Department for an extension of time. The Department will consider the degree of hazard, population served and the reason for delay when deciding whether to grant the extension.

2. Immediate Termination of Water Service

If, during a survey of the premises, a condition is found which could pose a critical health risk, the Department may immediately terminate water service to the facility, until such condition is corrected or the hazard eliminated. The Department may terminate service by shutting off the service at the curb stop or by removing the facility water meter. The service shall remain off until the Owner properly provides backflow protection at the source in conformance with this bylaw and all State and local plumbing regulations.

3. Device Installation

An approved backflow prevention device may be required by the Department of Public Works to be installed by the Owner on each line of his water system wherever the following conditions exist:

a. In the case of premises having an auxiliary water supply which is not or may not be safe bacteriological or chemical quality and which is not acceptable is an addition source by the Department, the public water system shall be protected against backflow from the auxiliary supply by installing a backflow prevention device in the service line appropriate to the degree of hazard.

b. In the case of premises on which any industrial fluids or any other objectionable substance is handled in such a fashion as to create an actual or potential hazard to the public water system, the public water system shall be protected against backflow from the premises by installing a backflow prevention device in the service line appropriate to the degree of hazard.

c. In the case of premises having (1) internal cross connection that cannot be permanently corrected and controlled, or (2) intricate plumbing and piping arrangements or where entry to all portions of the premises is not readily accessible for inspection purposes, making it impractical or impossible to ascertain whether or not dangerous cross connections exist, the public water system shall be protected against back flow from the premises by installing backflow prevention device in the service line.

d. Containment Protection. If the Owner is directed to install the backflow preventer for complete facility containment, the device shall be installed on the service line immediately inside the building after the water meter and before the first branch leading off the service.

e. In-Plant Protection. If the backflow prevention is required to control a specific process the approved device shall be installed ahead of the outlet or connection but behind any unrelated branch service that may be tapped off the same service.

f. Aquifer Protection. The Department of Public Works may require an approved backflow prevention device to be installed on private wells from which water is used for non-potable systems including, but not limited to, cooling waters, spray wash and irrigation networks. These devices shall be installed to prevent backflow of the used water to the underground

aquifer. Such device, if required, will be in addition to any single check valve which may be in line on the well pump.

4. Device Requirements

All commercial, industrial and institutional customers using water from the City of Woburn, Department of Public Works, must have installed at the point of connection (i.e. immediately downstream of the water meter) a State approved reduced pressure backflow device or State approved double check valve assembly.

The type of protection device required under this section shall depend upon the degree of hazard, which exists as follows:

In the case of any premises where there is an auxiliary water supply; or where there is any material dangerous to health which is handled in a fashion as to create an actual or potential hazard to the public water system; or where there are "uncontrolled" cross connections, either actual or potential, the public water system shall be protected by an approved air-gap separation or an approved reduced pressure principle backflow prevention device at the service connection.

In the case of any premises where there is water or substance that would be objectionable but not hazardous to health if introduced into the public water system, the public water system shall be protected by an approved double check valve assembly at the service connection.

In the case of any premises where, because of security requirements or other prohibitions or restrictions it is impossible or impractical to make a complete in-plant cross connection survey, the public water system shall be protected against backflow or back siphonage from the premises by the installation of a backflow prevention device in the service line. In this case, maximum protection will be required; that is, an approved air-gap separation or an approved reduced pressure principle backflow prevention device shall be installed in each service to the premises.

Any back-flow prevention device required herein shall be a model and size approved by the Department of Public Works. The term "approved back-flow prevention device" shall mean a device that is on the Commonwealth of Massachusetts' Department of Environmental Protection "approved list of backflow preventers and double check valves". Said approval list has been adopted by the City of Woburn. Final approval rests with the Department of Public Works.

Service of water to any premises shall be discontinued by the Department if backflow prevention device required by this bylaw is not installed, tested and maintained, or if it is found that a backflow device has been removed, by-passed, or if an unprotected cross connection exists on the premises.

Service will not be restored until such conditions or defects are corrected.

D. Testing

It shall be the duty of the Owner of any premises where backflow prevention devices are installed to have certified inspections and operational tests made at least once per year as required under Massachusetts Department of Environmental Protection Regulations. The Department of Public Works will conduct testing on these devices twice per calendar year as required or modified by Massachusetts Department of Environmental Protection Regulations.

It shall be the duty of the Department to schedule the semi-annual tests, and the responsibility of the Owner to obtain a private certified tester to schedule his annual test. The Department of Public Works may have these tests performed by their designated representative.

In those instances where the Department deems the hazard to be of considerable concern, it may require certified inspections and tests at more frequent intervals. All inspections and tests shall be at the expense of the Owner.

The Department of Public Works shall notify the Owner in advance when the tests are to be undertaken so that he or his representative may witness the test if so desired. These devices shall be repaired, overhauled or replaced by a licensed plumber at the expense of the Owner whenever said devices are found to be defective. Re-testing of repaired devices must be made within two weeks of the initial test as required by State Regulations. Records of such tests shall be kept by the Department of Public Works who will send proper notification to the Department of Environmental Protection.

All presently installed backflow prevention devices which do not meet the requirements of this section but where approved devices for the purposes described herein at the time of installation and which have been properly maintained, shall, except for the inspection and maintenance requirements, be excluded from the requirements of these rules so long as the Department of Public Works gives its approval in writing and is assured that the devices will satisfactorily protect the public water system.

Whenever the existing device is moved from the present location or requires more than minimum maintenance or the Department finds that the maintenance constitutes hazard to health, the unit shall be replaced by a backflow prevention device meeting the requirements of this bylaw.

Repair kits for all devices are required to be on hand and in the proximity of the device, in the event that maintenance is required.

All testing performed on backflow devices by the City of Woburn Department of Public Works, or its agents, will be charged to the Owner of the backflow device.

No backflow device may be removed without the written consent of the Department of Public Works.

All plumbing modifications must be approved by the Woburn Plumbing Inspector and follow the rules and regulations of the Massachusetts Plumbing Code. (Added 9/7/93)

13.2.34 Water Use Restrictions.

interest are liened to the real estate bills. Only one late fee and lien fee will be imposed when the bill is a combination water/sewer bill. Effective July 1, 2015. (Prior ch. 23 sec. 20; amended 4/05/85; amended 1/22/2015)

13.3.3 Use of Public Sewers Required.

It shall be unlawful to discharge any polluted water without the applicable state and federal discharge permits.

Except as hereinafter provided, it shall be unlawful for property owners to construct or repair any privy, privy vault, septic tank, cesspool, or other facility intended or used for the disposal of wastewater where a public sewer is within five hundred (500) feet of the property line and where permission to enter such sewer can be obtained from the authority having jurisdiction over it.

The owners of all houses, buildings, or properties used for human occupancy, employment, recreation, or other purposes, situated within the City and abutting on any street, alley, or right-of-way in which there is now located or may in the future be located a public sewer of the City, are hereby required at their expense to install suitable toilet facilities therein, and to connect such facilities directly with the proper public sewer in accordance with the provisions of these regulations within ninety (90) days after date of receipt of official notice from the Board of Health of the City of Woburn acting under the provisions of Title 5 of the "State Environmental Code for the Commonwealth of Massachusetts, Minimum Requirements for the Subsurface Disposal of Sanitary Sewage" or regulations relative thereto, provided that the public sewer is within five hundred (500) feet of the property line. Said connections shall be made without exception, unless for reasons as determined by the City of Woburn Board of Health.

13.3.4 Private Sewage Disposal.

Where a public sewer is not available under the provisions of 13.3.1, the building sewer shall be connected to a private wastewater disposal system complying with the requirements of the Board of Health of the City of Woburn acting under the provisions of Title 5 of the "State Environmental Code for the Commonwealth of Massachusetts, Minimum Requirements for the Subsurface Disposal of Sanitary Sewage" or regulations relative thereto, and/or the DEP.

13.3.5 Building Sewers and Installation.

No person(s) shall uncover (excavate), connect or cause to be connected to, or make any opening into, use, alter, or disturb any building sewer, public sewer, or appurtenances thereof except by written permit from the Superintendent of

Public Works. The permit shall be obtained in accordance with the current regulations. Any person proposing a new discharge into the public sewer or a substantial change in the volume or character of pollutants that are being discharged into the public sewer shall submit plans and calculations for the connection, stamped by a Massachusetts Registered Professional Engineer in compliance with 250 CMR 4.00, in accordance with these regulations. A permit must also be obtained for any repair work to existing building sewers.

There shall be two (2) classes of building sewer connection permits: (a) for residential service and (b) for non-residential service. In either case, the owner(s) or his agent shall complete a permit application in writing to the Superintendent. The permit application shall be supplemented by plans, specifications, or other information considered pertinent in the judgment of the Superintendent. A permit application/connection fee, which shall include the routine costs associated with the inspection of the building sewer installation by the Superintendent or his representative, shall be paid to the City at the time the application is filed. A separate "I/I" fee is also required in accordance with Section 13.3.10. Permit application fees shall be established from time to time by the Superintendent with City Council approval. Applications for building sewer installation or repair permits, signed by the owner(s) of the premises to be benefited, or by his/their agent, must be made at the office of the Department of Public Works.

Permits are not transferable and are valid for ninety (90) days from the date of issue. If no work commences within said ninety day period, a new permit must be obtained as described above.

The Mayor, in conjunction with the Superintendent of Public Works, shall establish, amend and promulgate local limits and regulations consistent with MWRA regulations and guidelines for the City's sewer connections to the Authority Sewerage System.

The Mayor, in conjunction with the Superintendent of Public Works, shall establish by regulation limits and conditions on the issuance of sewer connection permits including but not limited to:

Limits on rate, time and characteristics of discharge or requirements for flow regulation and equalization.

Installation of inspection, flow measurement and sampling facilities, including access to such facilities.

Specifications for monitoring programs which may include flow measurement,

sampling, chemical and biological testing, recording of data and a reporting schedule.

Other conditions as deemed appropriate by the City to ensure compliance with these regulations and with applicable requirements of federal or state law.

All new sewer connection permits shall be subject to a permit and fees as described in Section 13.1.4.

The Superintendent may require an evaluation of a proposed sewer connection, performed by a Massachusetts Registered Professional Engineer, to assess the impact the additional flow would have on the public sewer. The cost of said evaluation shall be borne by the applicant. A permit application may be denied if the additional flow is determined to have an adverse effect on the public sewer.

A separate and independent building sewer shall be provided for every building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can in any way be constructed to the rear building. In this case, the front building sewer may be extended to the rear building and the whole considered as one building sewer. No such connection shall be made without authorization from the Superintendent. Any connection made without such a permit shall be discontinued and any sewer use fees paid shall be forfeited. The City does not and will not assume any obligation or responsibility for damage caused by or resulting from any such single connection.

Under no circumstances will one building sewer be allowed to connect and serve more than one house or dwelling unit under separate ownership except in the case of condominiums.

Existing (old) building sewers shall not be used in connection with new building sewer construction, except by written permission of the Superintendent. New building sewers shall include a watertight connection to the public sewer.

Building sewers shall be of such size and material as the Department shall determine on each application. The building sewer shall be furnished and installed by a competent contractor who has been approved by the Superintendent. The connection of the building sewer to the public sewer shall conform to the requirements of these Regulations: *The City of Woburn Utility Construction Specifications* and the building and plumbing code or other applicable rules and regulations of the City. In the absence of code provisions or in amplification thereof, the materials and procedures as set forth in appropriate specifications of the American Society of Testing Materials (ASTM),

the Water Pollution Control Federation (WPCF) Manual of Practice No. 7 “Operation and Maintenance of Wastewater Collection Systems,” WPCF Manual of Practice No. FD-5, the American Society of Civil Engineers (ASCE) Manuals and Reports in Engineering Practice No. 60 “Gravity Sanitary Sewer Design and Construction”, and WPCF Manual of Practice No. FD-4 “Design of Wastewater and Stormwater Pumping Stations” shall apply. All such connections shall be made gastight and watertight and verified by proper testing. Any deviation from the prescribed procedures and materials must be approved by the Superintendent before installation. Non-approved material will be required to be removed and replaced at the expense of the applicant.

Whenever possible, the building sewer shall be installed to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, the wastewater carried by such building drain shall be pumped by an approved means and discharged to the building sewer or public sewer. Shop drawings of proposed pumping equipment must be submitted for approval by the Superintendent.

A manhole must be installed at any change in the line or grade of a building sewer. The manhole shall conform with Department construction standards.

If the City is required to perform emergency maintenance or repair work on private property, said work shall be paid for by the property owner on a time and materials basis and be subject to the city’s direct labor burden and equipment overhead costs which are described in Section 13.1.6.

The applicant for the building sewer permit shall notify the Superintendent when the sewer is ready for inspection and connection to the public sewer. The connection and testing shall be made under the supervision of the Superintendent, and no backfilling shall be permitted until all appropriate inspections are made. If the appropriate inspections are not completed, the superintendent may require an internal television inspection of the service connection. Any defects in the service shall be repaired prior to receiving a permit. The repairs may require re-excavation of the building sewer.

All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Any person, who during the installation of a sewer connection, shall excavate or otherwise disturb the roadway and/or sidewalk shall obtain a street opening permit from the Department prior to the commencement of the work. A performance bond of $5,000 or the cost of restoring said roadway and/or sidewalk to its prior condition, which ever is greater, shall be required before a permit is granted. Streets, sidewalks, parkways, and other public property disturbed in the course of the work shall be restored to its original condition in a manner satisfactory to

the Superintendent. The bond amount shall be determined by the Superintendent.

The DPW reserves the right to shut off the public sewer for the purpose of making alterations or repairs.

No person(s) shall make connection of roof downspouts, foundation drains, sump pumps, area drains, or other sources of surface runoff or groundwater to a building sewer or building drain, which in turn, is connected directly or indirectly to the public sewer. Any persons found discharging said sources shall be subject to penalties as set forth in Section 13.3.8 of these Regulations. The removal and rerouting of any of these types of sources shall be completed in accordance with the Department of Public Works' "Private Inflow Removal Program".

Building Sewers shall be internally inspected at the time of transfer of title in accordance with Department of Public Works Policy and under the direction of the Superintendent. Inspection shall be performed to ensure the building sewer is in compliance with City Ordinance and that illegal connections to the sewer system do not exist. Any defects in the building sewer shall be repaired at the owner's sole expense. Any repairs made to building sewers shall be done in accordance with Section 13.3.5.

Internal inspection of privately owned sewer system infrastructure connected to the municipal collection system shall be performed in accordance with Department of Public Works Policy once every five (5) years. Private systems require inspection if they meet any of the following conditions.

- the connection to the public sewer system is eight inches or larger
- any manholes or similar structures are associated with the system
- the connection to the public sewer system is not made by gravity

If the system is found to be in violation of this Ordinance it shall be repaired at the owner's sole expense. The Superintendent shall inspect and approve all repair methods and repairs in accordance with Department of Public Works policy.

The Superintendent or his representative reserves the right to inspect any property to confirm that there are none of the aforementioned unauthorized connections to the public sewer.

Any person(s) found discharging non-contact cooling waters to the public sewer shall be subject to penalties as set forth in Section 13.3.8 of these Regulations.

Mainline sewer extensions shall be authorized by City Council Vote or by Subdivision approval of the Planning Board and shall be installed in accordance with current Department of Public Works construction standards.

13.3.6 Sewer Line Construction and Maintenance.

The cost of the construction hereafter of any sewer or extension of any existing mainline sewer or the doing of any other work in connection therewith, except building sewers, shall be assessed upon the estates especially benefited thereby, and such cost shall be the average cost, to be determined by the Superintendent in each year, of such construction and other work in connection therewith in a period of three years preceding the year in which such average cost is to be determined.

The full cost of construction of the building sewer connection from the public sewer to the dwelling unit or estate benefited, shall be paid for directly by the persons or owners of the estates benefited.

The maintenance and cleaning of a building sewer shall be the responsibility of the owner of the dwelling unit or estate benefited by such building sewer

13.3.7 Use of the Public Sewers.

No person(s) shall discharge or cause to be discharged any unpolluted waters such as stormwater, surface water, groundwater, roof or surface runoff, tidewater, subsurface drainage, uncontaminated cooling water, unpolluted industrial process waters, non-contact cooling water, or non-contact industrial process waters to any public sanitary sewer. In general, only sanitary sewage shall be discharged to the common sewer.

No person shall discharge or cause to be discharged substances, materials, waters, or wastes if it appears likely, in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream, or can otherwise endanger life, limb, public property, or constitute a nuisance.
Unless otherwise stated herein the provisions of 360 CMR 10 and any supplementary revisions shall govern all discharges to the sanitary sewer system.

Oil water separators must be cleaned prior to annual renewal of a Class 1 permit. Documentation must be provided to the Superintendent of Public Works prior to renewal.

A grease interceptor shall be installed in the waste line leading from sinks,

drains or other fixtures in the following establishments: Restaurant, cafeteria, hotel, hospital, institutional, factory, club, and other commercial kitchens; food and meat packing and processing establishments; supermarkets, bakeries, and other establishments where grease can be introduced into the sewer system in quantities that can cause line stoppage or hinder sewage disposal, or when, in the opinion of the Superintendent, they are necessary for the proper handling of liquid wastes containing floatable oil in excessive amounts.

Grease interceptors shall be installed in accordance with the Massachusetts State Plumbing Regulations unless otherwise stated herein.

Such interceptors shall not be required for private living quarters or dwelling units.

All interceptors shall be installed on the exterior of the building and shall be located as to be readily and easily accessible for cleaning and inspection. Grease interceptors shall not be installed unless tested, rated and bear the seal of acceptance of State Plumbing Board or approved by the Superintendent.

Installed grease interceptors shall have a minimum capacity of 1,500 gallons and have a grease retention capacity of not less than two (2) pounds for each gallon per minute of flow. Flow rates from the State Environmental Code, Title V, 310 CMR 15, shall be used to determine the size of a grease trap. Other alternative and innovative approved methods of grease removal and disposal may be used if approved by the Health Department, Plumbing Inspector, and Department of Public Works. All newly constructed facilities must install industrial type grease traps.

A manhole shall be installed on the discharge line of the grease trap for sampling of the grease trap effluent. Sampling shall be performed to ensure compliance with the regulations.

Grease interceptors shall be equipped with devices to control the rate of water flow through the interceptors so that the flow rate does not exceed the rated design flow of the interceptors.

The waste from food and waste grinders shall not discharge to the sewer system through a grease interceptor.

The use of water-cooled grease interceptors is prohibited.

In the maintaining of these interceptors, the owner(s) shall be responsible for the proper removal and disposal, by appropriate means, of the captured material and shall maintain records of the dates, and means of disposal. These

records shall be submitted to the Superintendent annually. Licensed waste disposal firms must perform any removal and handling of the collected materials.

All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in these regulations shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater", published by the American Public Health Association, and shall be determined at the control structure provided, or upon suitable samples taken at said control structure. In the event that no special structure has been required, the control structure shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property.

All industries discharging into a public sewer shall perform such monitoring of their discharges as the Superintendent and/or other duly authorized employees of the City may reasonably require, including installation, use, and maintenance of monitoring equipment, keeping records and reporting the results of such monitoring to the Superintendent. Such records shall be made available, upon request by the Superintendent, to other agencies having jurisdiction over discharges to the receiving waters.

13.3.8 Penalties.

Whenever, on the basis of information available to it, the City determines any person to be violating any provision of this ordinance, the City may take any or all of the following actions:

Issue an order to cease and desist any such violation;

Issue an implementation schedule ordering specific actions to be taken together with time and schedule requirements;

Bring a civil or criminal action as provided by law;

Take any action available to it under federal, state, or local laws or regulations.

Any person violating any of the provisions of this ordinance shall be subject to a fine of $50.00 for the first violation, $100.00 for the second violation, and $300.00 for the third and subsequent violations. Fines shall be included with water and sewer bills and, if not paid, will result in a lien on the property in accordance with Section 13.1.5. Violations may result in the revocation of City

licenses. This provision may be enforced through non-criminal disposition. Each day a violation shall be deemed a separate offense.

In addition, and not in lieu of a fine, any person violating any of the provisions of this ordinance shall be subject to a civil penalty up to $5,000.00 for each violation, as provided by G.L. c.83, §10. Each day a violation shall continue shall be deemed a separate offense.

Any person violating the provisions of these regulations shall become liable to the City for any expense, loss, or damage incurred by the City by reason of such violation, including but not limited to any fines, charges, or assessments made or imposed on the City by any federal, state, or local agency.

All penalties, fines, or fees related to Article III, Sewer System, of Title 13 shall be collected as described in Section 13.1.5, Water/Sewer Charges to Constitute Lien Upon Real Estate.

A system of sewer use charges, together with suitable procedures for monitoring and enforcing compliance with the sewer use ordinance, shall be set after a public hearing.

Users resident in the City of Woburn, and non-resident users metered to the Department shall be assessed user charges in accordance with water usage as measured by the Department.

Users not metered by the City of Woburn shall be assessed user fees as measured by water usage provided by the public water system which provides their service, if applicable, or if not connected to any public water system, then such measurement shall be made by estimation of the average of five comparable users.

All City Departments and all county, state, federal, and municipal buildings shall be responsible for payment of users fees assessed in accordance with water usage.

Users of City property, including tenants and lessees, shall be responsible for payment of users fees assessed in accordance with water usage.

13.3.9 Rates for Use of Common Sewer.

A. Every person or owner of an estate who has entered or who may hereafter enter his particular sewer into a common sewer shall pay for the use of such sewer as follows:

1. For Domestic Use: base rate of $164.00 for billing cycle. (Ords. 04/05/85; 05/18/88; 05/04/89; 08/15/90; 07/01/91; 6/16/92; 8/20/96; 12/15/2004; 6/27/2005; 6/14/2006; 8/24/2007; 10/9/2008)

2. For Manufacturing Use: The base rates shall be 304% of the Annual Water Bill Charges or ten (10%) percent above the annual MWRA charge for the sewer discharge whichever is highest. (Ords. 04/05/85; 05/18/88; 05/04/89; 08/15/90; 07/01/91; 06/16/92; 6/14/2006)

3. For Small Business Use: The base rates shall be 304% of the Annual Water Bill Charges. (Ords. 04/05/85; 05/18/88; 08/15/90; 07/01/91; 06/16/92; 6/14/2006)

4. For Mixed Use Buildings: The base rates shall be $164.00 per billing cycle for each Domestic Use and 304% of the Annual Water Bill Charges for each separately metered Commercial or Manufacturing Use. Mixed Use Buildings with multi-residential units shall be billed by the number of units times the flat rate, semiannually.

    a. For the purpose of this section, "Mixed Use Building" means a use that includes a residential use and a commercial use within the same building.

5. Properties not connected to the Common Sewer where sewer service is available on street, shall be assessed a semi-annual fee of $5.00 per unit dwelling. (Prior ch. 23 sec. 18). (Amended 9/4/92)

6. Senior citizens connected to the Common Sewer who are entitled to an exemption under Property Tax Statutory Exemption, Chapter 59 Sec. 5 Cl. 17C and Chapter 59 Sec. 41 will be entitled to a 66% reduction in sewer charges for the unit dwelling occupied by the eligible person. Proof of entitlement shall be presented with the sewer bill. (Ords. Dated 05/18/88, 05/05/89).

7. Any change in the base rates specified herein shall require a majority vote of the City Council for approval. (added 6/14/2006, amended 1/22/2007)

B. The quantity of sewerage delivered to a public sewer from a building sewer shall be determined by water meter readings of the appropriate public water system, and said readings are to be taken and recorded under the direction of the Superintendent of Public Works.

C. Request for abatements and exemptions must be filed, in writing, with the Superintendent of Public Works within thirty (30) days of the billing date recorded on the water and sewer bill except those who have paid sewer charges without being connected to City sewer system. In the latter situation, none of these abatements shall exceed six (6) years. (Ord. Dated 05/04/89 – 3/15/94).

D. Any Appeal of the Superintendent's disposition of a request for an abatement or exemption shall be as set forth in Section 13.1.0.

E. Out-of-city customers connected to the Woburn Sewer System shall be billed the applicable sewer rate plus 25% sewer charge fee. (Ord. Dated 05/04/89).

F. The rate schedule may be amended from time to time after a public hearing, held in accordance with applicable law.

(amended 7/3/2012)

13.3.9 I/I Mitigation Fee.

All new connections to the municipal sanitary system shall be charged a one-time I/I fee in accordance with the following fee schedule:

Use	Required Fee
Residential	$1,000.00/unit equivalency
Non-residential	Applicant must remove 10 gallons of I/I from the sewer system for each 1 gallon of wastewater flow requested in the permit (Title 5 (310 CMR 15) shall be used to determine flow rates)

If there are not sources of I/I, which in the opinion of the Superintendent, are appropriate for removal at the time of the permit, a monetary fee may be required. The fee shall be calculated based on Title 5 flows, a 10 to 1 removal factor, and a cost of $0.70 per gallon of flow per day. For example, a 10,000 square foot office building has an associated Title 5 flow of 750 gpd, therefore the fee for this connection is $5,250 (750gpd x 10 x $0.70). A combination of I/I removal and monetary fees may also be requested by the Superintendent.

Unit equivalencies shall be determined as described in Section 13.1.4.

Any I/I removed from the sewer system as part of the I/I Mitigation Fee shall be

the property of the City of Woburn and may not be applied to future removal requirements without the written authorization of the Superintendent.

The Mayor or his designee will have the authority to waive such fee for any existing residence. (Added 5/21/96; amended 12/3/96)

IV. STORMWATER, ILLICIT DISCHARGE/CONNECTION AND CONSTRUCTION SITE MANAGEMENT

13.4.1 Purpose

A. The purpose of this Ordinance is to protect the surface water bodies, wetlands, natural resources, and public and private property within the City of Woburn from the negative impacts caused by polluted and unmanaged stormwater runoff and activities related to development, construction and land surface alteration and work not otherwise subject to regulation by the Planning Board and/or the Conservation Commission. In response to the mandates set forth under the amendments to the Federal Clean Water Act, this Ordinance partially fulfills the requirement of the Phase II National Pollution Discharge Elimination System (NPDES) Permit in order to achieve compliance with the U.S. Environmental Protection Agency's stormwater regulations.

B. Because stormwater discharges from a variety of sources, including storm sewers, construction, waste disposal, earth disturbance and resource extraction, are major causes of impairment to the water quality of natural coastal and inland water bodies and wetland resource areas; this Ordinance is designed to regulate a myriad of aspects relating to the development or redevelopment of land as well as to detect and eliminate illicit discharges into the City's storm drainage system.

C. This Ordinance and the regulations promulgated hereunder serve to establish minimum standards, design criteria, implementation, guidance and enforcement to achieve the following objectives:

1. Establish, regulate and enforce stormwater management standards for development and redevelopment projects by adopting and enforcing the ten (10) Stormwater Management Standards set forth in the Massachusetts Stormwater Management Policy as of the date of adoption of this amendment, and set forth in Section 13.4.3.B;
2. Detect and eliminate illegal discharges to the municipal storm drain system including but not limited to sewage, process wastewater, wash water, indoor drains, floor drains and sinks from residential, commercial or industrial sources;

3. Guide, regulate and manage construction activities that render soil exposed and vulnerable to erosion by wind and water as well as contain and properly manage potential on-site pollutants including but not limited to oils, gasoline, pesticides, paints, garbage and sanitary wastes;
4. Regulate the alteration of grades/elevations of the land surface by more than two (2) feet to protect against damage to abutting properties and adjacent wetland resource areas resulting from altered drainage patterns.
5. Authorize the City's Engineering Department to establish and evaluate rules and regulations to further clarify and implement this Ordinance.

13.4.2 Applicability

This Ordinance applies to all construction, development, and redevelopment activities that involve and/or impact stormwater discharge, soil disturbance, altering of grades or drainage patterns except as otherwise expressly exempted herein.

13.4.3 Stormwater Management of New Development & Redevelopment

A. Regulation of discharges to the municipal storm drainage system, surface waters and wetlands is necessary for the protection of the City of Woburn's water bodies and groundwater, and to safeguard the public health, safety, welfare and the environment. Increased and contaminated stormwater runoff associated with developed land uses and the accompanying increase in impervious surface is a major cause of impairment of: water quality and flow in the ocean, lakes, ponds, streams, rivers, wetlands and groundwater; contamination of drinking water supplies; erosion of stream channels; alteration or destruction of aquatic and wildlife habitat; and flooding.

B. This Ordinance establishes stormwater management standards for development and redevelopment projects that disturb twenty thousand (20,000) sq. ft. or more of land, in order to minimize adverse impacts offsite and downstream which would be borne by abutters, residents and/or the general public, by requiring compliance with all state and federal statutes and regulations relating to stormwater discharges and by adopting the following Standards of the Massachusetts Stormwater Policy. Note that any future amendments to the Massachusetts Stormwater Policy that may be made subsequent to the date of adoption of this amendment shall not be incorporated into this Ordinance except by majority vote of the Woburn City Council:

1. No new stormwater conveyances (e.g. outfalls) may discharge untreated stormwater directly to or cause erosion in wetlands or waters of the Commonwealth.
2. Storm water management systems shall be designed so that post-development peak discharge rates do not exceed pre-development peak discharge rates;

3. Loss of annual recharge to groundwater shall be eliminated or minimized through the use of infiltration measures to the maximum extent practicable, including environmentally sensitive site design, low impact development techniques, stormwater best management practices and good operation and maintenance. At a minimum, the annual recharge from a site post-development shall approximate the annual recharge from pre-development conditions, based on soil type. This standard is met when the stormwater management system is designed to infiltrate the required recharge volume as determined in accordance with the State's Stormwater Handbook;
4. Stormwater management systems shall be designed to remove eighty percent (80%) of all Total Suspended Solids (TSS). This standard is met when:

    a. Suitable practices for source control and pollution prevention are identified in a long-term pollution prevention plan, and thereafter are implemented and maintained;
    b. Structural stormwater best management practices are sized to capture the required water quality volume determined in accordance with the Massachusetts Stormwater Handbook; and
    c. Pretreatment is provided in accordance with the Massachusetts Stormwater Handbook.

5. For land uses with higher potential pollutant loads, source control and pollution prevention shall be implemented in accordance with the Massachusetts Stormwater Handbook to eliminate or reduce the discharge of stormwater runoff from such land uses to the maximum extent practicable. If through source control and/or pollution prevention all land uses with higher potential pollutant loads cannot be completely protected from exposure to rain, snow, snow melt, and stormwater runoff, the proponent shall use the specific structural stormwater BMPs determined by the Department to be suitable for such uses as provided in the Massachusetts Stormwater Handbook. Stormwater discharges from land uses with higher potential pollutant loads shall also comply with the requirements of the Massachusetts Clean Waters Act, M.G.L. c. 21, §§ 26-53 and the regulations promulgated thereunder at 314 CMR 3.00, 314 CMR 4.00 and 314 CMR 5.00.
6. Stormwater discharges within the Zone II or Interim Wellhead Protection Area of a public water supply, and stormwater discharges near or to any other critical area, require the use of the specific source control and pollution prevention measures and the specific structural stormwater best management practices determined by the Department to be suitable for managing discharges to such areas, as provided in the Massachusetts Stormwater Handbook. A discharge is near a critical area if there is a strong

likelihood of a significant impact occurring to said area, taking into account site-specific factors. Stormwater discharges to Outstanding Resource Waters and Special Resource Waters shall be removed and set back from the receiving water or wetland and receive the highest and best practical method of treatment. A “storm water discharge” as defined in 314 CMR 3.04(2)(a)1 or (b) to an Outstanding Resource Water or Special Resource Water shall comply with 314 CMR 3.00 and 314 CMR 4.00. Stormwater discharges to a Zone I or Zone A are prohibited unless essential to the operation of a public water supply.

7. A redevelopment project is required to meet the following Stormwater Management Standards only to the maximum extent practicable: Standard 2, Standard 3, and the pretreatment and structural best management practice requirements of Standards 4, 5, and 6. Existing stormwater discharges shall comply with Standard 1 only to the maximum extent practicable. A redevelopment project shall also comply with all other requirements of the Stormwater Management Standards and improve existing conditions.
8. A plan to control construction-related impacts including erosion, sedimentation and other pollutant sources during construction and land disturbance activities (construction period erosion, sedimentation, and pollution prevention plan) shall be developed and implemented.
9. A long-term operation and maintenance plan shall be developed and implemented to ensure that stormwater management systems function as designed.
10. All illicit discharges to the stormwater management system are prohibited.

C. The following activities and uses are exempt from the Stormwater Management Ordinance:

1. Detached single-family dwelling;
2. Detached two-family dwelling;
3. Additions to detached single-family and two-family dwellings;
4. Normal maintenance and improvement of land in agricultural use as defined by the Wetlands Protection Act regulation 310 CMR 10.04;
5. Maintenance of existing landscaping, gardens or lawn areas provided such maintenance does not include the addition of soil material or alteration of existing grades and provided the project involves less than one hundred (100 cubic) yards of fill (see Section 13.5.3.G., below);
6. The construction of any walls and fencing that will not alter existing terrain or drainage patterns;
7. Construction of utilities other than drainage (gas, water, sanitary sewer, electric, telephone, etc.) which will not alter terrain, ground cover, or drainage patterns;
8. Projects within the jurisdiction of the Conservation Commission requiring an Order of Conditions;

9. Projects under the jurisdiction of the Woburn Planning Board by virtue of the Subdivision Control Law; and
10. Emergency repairs to roads or utility systems.

D. For phased projects, the determination of whether the Stormwater Management Standards apply is made on the entire project as a whole including all phases. When proposing a development or redevelopment project subject to the Stormwater Management standards, proponents shall consider environmentally sensitive site design that incorporates low impact development techniques in addition to stormwater best management practices.

E. Project proponents seeking to demonstrate compliance with some or all of the Stormwater Management Standards to the maximum extent practicable shall demonstrate that:

1. They have made all reasonable efforts to meet each of the Standards;
2. They have made a complete evaluation of possible stormwater management measures, including environmentally sensitive site design, low impact development techniques that minimize land disturbance and impervious surfaces, structural stormwater best management practices, pollution prevention, erosion and sedimentation control, and proper operation and maintenance of stormwater best management practices; and
3. If full compliance with the Standards cannot be achieved, they are implementing the highest practicable level of stormwater management.

F. Projects involving one hundred (100) cubic yards of fill or more must obtain a Special Permit from the Woburn City Council, in accordance with Section 5.5 of the City's zoning ordinance.

13.4.4 Illicit Connections

A. This Ordinance also provides for the health, safety, and general welfare of the citizens of Woburn by regulating storm water discharge into the City's storm drain system and waterways in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES) permit process.

B. The City's storm drainage system includes storm water pipes and drainage waterways and conveys surface water runoff to receiving waters. Generally runoff enters the storm water drainage system piping through catch basins on streets and on public and private property and from drainage swales and ditches. No sewage discharge is allowed into this system.

The City also has a separate piped municipal sanitary sewerage system. In

order to reduce and eliminate infiltration and inflow into this system, no storm drainage discharge is allowed into the municipal sanitary sewer system from any source including, but not limited to, sump pumps and roof drainage. The sewerage system conveys wastewater from residences and commercial and industrial establishments to the wastewater treatment plant. The City's sewerage system is regulated by Title 13, Article III, Sewer System, of the Woburn Municipal Code.

C. The objectives of this section are to:

1. Minimize the contribution of pollutants to the municipal storm drainage system;
2. Minimize the negative impact of illicit connections and discharges upon the City's natural resources;
3. Prohibit illicit connections and discharges to the municipal storm drainage system; and
4. Establish legal authority to carry out all inspection, surveillance and monitoring procedures necessary to ensure compliance with this Ordinance.

13.4.5 Erosion/Sedimentation and Materials Management

A. During the construction process, soil is highly vulnerable to erosion by wind and water. Eroded soil endangers water resources by degrading water quality and causing the siltation of terrestrial and aquatic habitat for fish and other desirable species. Eroded soil also necessitates extraordinary maintenance and repair of storm drains and ditches and the dredging of lakes. In addition, clearing and grading during construction cause the loss of native vegetation necessary for terrestrial and aquatic habitat.

B. Many potential pollutants other than sediment are associated with construction activities. These pollutants include pesticides, fertilizers used for vegetative stabilization; petrochemicals (oils, gasoline, and asphalt degreasers); construction chemicals (such as concrete products, sealers, and paints, wash water associated with these products); paper; wood; garbage; and sanitary wastes.

C. As a result, the purpose of this section is to safeguard persons, protect property, and prevent damage to the environment in the City of Woburn. This Ordinance also promotes the public welfare by guiding, regulating, and controlling the design, construction, use, and maintenance of certain development or other activity that disturbs the topsoil or results in the movement of earth within the City of Woburn.

D. Stormwater discharges from construction activities (such as clearing, grading,

excavating, and stockpiling) that disturb one (1) acre or more are regulated under the National Pollutant Discharge Elimination System (NPDES) stormwater program. Prior to discharging stormwater, construction operators must obtain coverage under an NPDES permit, which is administered by Mass DEP and the EPA. An applicant is required to file a Stormwater Pollution Prevention Plan (SWPPP) when seeking a NPDES permit.

1. No person shall undertake a land-disturbing activity that would require the uncovering of one (1) acre (43,560 square feet) or more without the review and approval of the applicant's SWPPP by the City Engineering Department. Such projects shall be required to also submit an Erosion/Sediment Control and Materials Management Plan with the application when, in the opinion of the City Engineer or his designee, the submission of such a plan is needed to further the purpose and intent of this Ordinance and/or to safeguard surrounding property and public infrastructure systems.

E. No person shall be granted a site development permit for land-disturbing activity that would require disturbing less than one (1) acre (43,560 sq. ft.) but more than twenty thousand (20,000) sq. ft. without the approval of an Abbreviated Erosion/Sediment Control & Materials Management Application by the Engineering Department.

F. The following activities and uses are exempt from the Erosion/Sedimentation and Materials Management Ordinance:

1. Any emergency activity that is immediately necessary for the protection of life, property, or natural resources, as determined by the City's Director of Inspectional Services or Director of the Board of Health;
2. Repairs to any roadway or utility system deemed necessary by the City of Woburn Engineering Department or its designee;
3. Existing nursery and agricultural operations conducted as a permitted use; or
4. Projects disturbing less than twenty thousand (20,000) sq. ft. of land.

13.4.6 Drainage Pattern Alterations

A. Changing the grading of the land surface can have an impact on drainage characteristics of even relatively small watershed areas. Therefore, regulating proposed grading for all projects, including minor ones is necessary for the protection of the City of Woburn's natural resources, and to safeguard public and private property from the potential negative impacts due to increased peak rate run off, increase in volume, and flooding.

B. A permit required by this Ordinance will be issued by the Director to the owner

or the owner's duly authorized agent after the Director has reviewed a plan submitted showing the nature of the grade change proposed. Said permit shall only be issued on such conditions, which shall be determined by the City Engineer, that will ensure that the proposed grade changes will not adversely affect existing drainage and groundwater conditions that could affect the public health, safety and welfare of any public way or adjoining real estate.

C. It shall be unlawful for any person or other legal owner of real property in the City to disturb the existing grade of land by more than two (2) feet without first obtaining the approval of the City Engineer, and where applicable, the Conservation Commission (if the activity is subject to the Wetlands Protection Act or the Woburn Wetland Ordinance (Title VII) and the Rules and Regulations adopted pursuant to that Ordinance) and the Planning Board (if the property is being altered pursuant to a plan subject to the Subdivision Control Law).

E. In addition, any project involving the removal or filling of more than one hundred (100) cubic yards of earth must obtain a Special Permit from the Woburn City Council, in accordance with Section 5-5 of the Zoning Ordinance.

F. The following activities and uses are exempt from the Drainage Pattern Alterations Ordinance:

1. Emergency work as declared or determined by the City Engineer or his designee.

13.4.7 Responsibility For Administration

The City Engineer shall administer, implement, and enforce the provisions of these Stormwater and Construction Management Ordinances. Any powers granted or duties imposed upon the City Engineer by this Ordinance may be delegated in writing by the Director to persons or entities acting in the beneficial interest of or in the employ of the City.

13.4.8 Enforcement

A. The Building Commissioner and the Police Department ("Enforcing Authority") are authorized to enforce this ordinance and resulting regulations, orders, violation notices, and enforcement orders, and may pursue all criminal and civil remedies, including injunctive relief and monetary damages and costs of litigation and attorney fees, for such violations and for abatement and mitigation and compliance actions taken by the Enforcing Authority. Any person violating the provisions of these regulations shall become liable to the City for any expense, loss, or damage incurred by the City by reason of such violation, including but not limited to any fines, charges, or assessments made or

imposed on the City by any federal state, or local agency. To the extent permitted by state law, or if authorized by the owner or other party in control of the property, the Enforcing Authority, its agents, officers, and employees may enter upon privately owned property for the purpose of performing their duties under this ordinance and may make or cause to be made such examinations, surveys or sampling as it deems reasonably necessary to determine compliance with a permit issued under this ordinance. Enforcement shall be further defined and included as part of the regulations promulgated under this ordinance.

B. Violations of any of the provisions of this ordinance shall be subject to a fine of two hundred fifty dollars ($250.00) for the first violation and five hundred dollars ($500.00) for the second and subsequent violations.

C. Each day, or part thereof that a violation continues shall be deemed a separate offense.

D. Non-Criminal Disposition. As an alternative to criminal prosecution or civil action, the Enforcing Authority may elect to utilize the non-criminal disposition procedure set forth in M.G.L. c.40, §21D and Section 1.18 of the Woburn Municipal Code,

E. Remedies are not exclusive. The remedies set forth in this article are not exclusive of any other remedies available under any applicable federal, state or local law.

F. Appeals. The decisions or orders of the Enforcing Authority shall be final. Further relief of a decision by the Enforcing Authority made under this Article shall be reviewable in the Superior Court in accordance with M.G.L. c.249, §4.

13.4.9 Rules & Regulations

The City Engineer shall be empowered to establish Rules and Regulations to govern the permitting process, including but not limited to fees, application procedures, definitions, use of consultants, security to assure performance, performance standards for work, and such other information the Department deems necessary to discharge its responsibilities. The Department may promulgate such rules and regulations to effectuate the purposes of this Ordinance. Failure by the Department to promulgate such rules and regulations, or a legal declaration of their validity by a court of law, shall not act to suspend or invalidate the effect of this Ordinance.

13.4.10 Severability

If any provision of this ordinance shall be held invalid, the remainder of the ordinance shall not be affected thereby, nor shall it invalidate any permit, order or decision which had

previously been issued and become final.

V. DEMOLITION DELAY – THE PRESERVATION OF HISTORICALLY SIGNIFICANT BUILDINGS

15-15 Intent and Purpose

This Ordinance is enacted for the purpose of preserving and protecting Significant

Buildings within the City which constitute or reflect distinctive features of the architectural, cultural, economic, political or social history of the City and to limit the detrimental effect of demolition on the character of the City. Through this Ordinance, owners of Preferably Preserved Buildings or Structures are encouraged to seek out alternative options that will preserve, rehabilitate or restore such Buildings or Structures, and residents of the City are alerted to impending demolitions of Significant Buildings. By preserving and protecting Significant Buildings, streetscapes and neighborhoods, this Ordinance promotes the public welfare by making the City a more attractive and desirable place in which to live and work. To achieve these purposes the Historical Commission is authorized to advise the Building Commissioner with respect to Demolition Permit applications. The issuance of Demolition Permits is regulated as provided by this Ordinance.

15-16 Definitions

vandals, and/or failure to take reasonable measures to prevent the ingress of water, snow, ice, and wind through the roof, walls, or apertures.

- is importantly associated with one or more historic persons or events, or with the broad architectural, cultural, political, economic or social history of the City or the Commonwealth; or

STRUCTURE: A fixed combination of materials assembled, constructed, erected or maintained at a fixed location and placed permanently in or on the ground for a purpose other than creating shelter for persons, animals or property.

15-17 Procedure

No permit for the demolition of a Building or Structure which is in whole or in part more than seventy-five (75) years old shall be issued without following the provisions of this Ordinance. For the purposes of this Ordinance, if a Building or Structure is of unknown age, it shall be assumed to be older than seventy-five (75) years.

1. An Applicant proposing to demolish a Building or Structure subject to this Ordinance shall file with the Building Commissioner an application containing the following information:

    - The address of the Building or Structure to be demolished.

- The owner's name, address and telephone number.
- A description of the Building or Structure.
- The reason for requesting a Demolition Permit.
- A brief description of the proposed reuse, reconstruction or replacement.
- A photograph or photograph(s) of the Building or Structure.

An application will be considered “complete” only when accompanied by all of the aforementioned materials/information, together with the filing fee.

2. The Building Commissioner shall forward a copy of the completed application to the Commission within seven (7) business days of his/her receipt thereof. The Commission shall within fifteen (15) business days after its receipt of the completed application, make a written determination of whether the Building or Structure is significant.

3. If the Commission determines that the Building or Structure is not significant, the Commission shall so notify the Building Commissioner and Applicant in writing. The Building Commissioner may then issue the Demolition Permit.

4. If the Commission determines that the Building or Structure is significant, the Commission shall so notify the Building Commissioner and the Applicant in writing. No Demolition Permit may be issued at this time. If the Commission does not notify the Building Commissioner within fifteen (15) business days of its receipt of the completed application, the Building Commissioner may proceed to issue the Demolition Permit.

5. If the Commission finds that the Building or Structure is significant, it shall hold a public hearing within forty-five (45) days after the filing of the completed application with the Building Commissioner. The Commission shall give public notice thereof by publishing notice of the time, place and purpose of the hearing in a local newspaper one time at least seven (7) business days before said hearing. A copy of said notice shall be mailed to the Applicant, to the owners of all abutting property as they appear on the most recent tax list, to the Building Commissioner, Planning Board and if applicable, the Conservation Commission.

6. The Applicant shall bear all costs for the publication of notice.

7. If, after such hearing, the Commission determines that the demolition of the Significant Building or Structure would not be detrimental to the historical or architectural heritage or resources of the City, or where less than a complete demolition is being proposed such that the work to be done will not materially diminish its historical significance, the Commission shall so notify the Applicant and the Building Commissioner within ten (10) business days of such

determination. The Building Commissioner may then proceed to issue the Demolition Permit in accordance with applicable law.

8. If the Commission fails to hold a public hearing within forty-five (45) days of the day the completed Application was filed with the Building Commissioner or, if the Commission fails to make a decision within ten (10) business days following said hearing, the Building Commissioner may, subject to the requirements of the State Building Code and any other applicable laws, rules and regulations, issue the Demolition Permit.

9. If agreed to in writing by the Applicant, the determination of the Commission may be postponed.

10. If the Commission determines that the Building or Structure should be Preferably Preserved, the Commission shall notify the Building Commissioner and Applicant in writing. No Demolition Permit may then be issued for a period of twelve (12) months from the date of the determination unless otherwise agreed to by the Commission. If the Commission does not so notify the Building Commissioner in writing within twenty one (21) days of the public hearing, the Building Commissioner may issue the Demolition Permit.

11. Notwithstanding the preceding sentence, the Building Commissioner may issue a Demolition Permit for a "Preferably Preserved Significant Building or Structure" at any time after receipt of written advice from the Commission to the effect that the Commission is satisfied that bona fide and reasonable efforts have been made to locate a purchaser willing to preserve, rehabilitate and restore the subject Building or Structure, and that such efforts have been unsuccessful or, if the Commission notifies the Building Commissioner in writing that the Commission finds that the intent and purpose of this Ordinance is served even with the issuance of the Demolition Permit or the Building Permit.

15-18 Alternatives to Demolition

A. If the Commission imposes a demolition delay as set forth in Section 15-17 and/or if alternatives to demolition are developed in the public hearing which are acceptable to the Applicant and/or owner, then the Commission is hereby empowered, in its discretion, to enter into an agreement with such Applicant and/or owner providing for such alternatives and a time period for implementation of same.

B. A copy of said agreement shall be filed with the Building Commissioner and any other applicable City agency, and thereafter no work shall be done on the Building or Structure except in accordance with the terms of said agreement

unless and until a new Demolition Permit application is filed and processed hereunder.

15-19 Minimum Maintenance of Significant Buildings/Demolition by Neglect

A. Significant Building or Structure shall be maintained in a weather tight condition so as to prevent water intrusion into any portion of the Building or Structure and to prevent Demolition by Neglect, including but not limited to maintenance of the roofing, siding, windows, doors, trim and other architectural features. Maintenance shall also include the replacement or repair of any structural element or exterior architectural feature that if left unattended would result in further damage or degradation to any element thereof**.**

B. If the Commission has reason to believe, through visual inspection or other means that a Significant Building or Structure may be undergoing Demolition by Neglect then the Commission shall notify the Building Commissioner and the owner. The Commission shall hold a public hearing to determine whether or not the Significant Building or Structure is undergoing Demolition by Neglect. In furtherance of determining its condition, the Commission may, at any time, request an inspection of the Building or Structure by the Building Commissioner. If the Commission determines that the Significant Building or Structure is undergoing Demolition by Neglect, the Commission shall attempt to negotiate a voluntary agreement with the owner for appropriate and timely repairs sufficient to structurally stabilize the Significant Building or Structure and/or prevent further deterioration.

C. In the event that the Commission is unable to negotiate such an agreement with the owner, or the owner has agreed to undertake but has failed satisfactorily to complete such repairs in a timely manner, the Commission shall state in writing the findings of fact in support of such determination of violation of this Section and shall issue and cause to be served upon the owner and/or other parties in interest therein an order to repair within a time to be specified in the written decision those features of the Building or Structure that do not comply with Section 15-19(A)

D. The Commission's determination may be appealed to the Woburn Board of Appeals by, a written application filed by the aggrieved party with the City Clerk within ten (10) business days following receipt of the Commission's order. A hearing on the appeal shall be held within sixty (60) days of the written application.

E. If, after the allotted time period has expired and after the hearing of an appeal, if any, the owner or person with an interest in property has failed to meet the requirements of Section 15-19(A), the City may enter the property, subject to

applicable law, to correct the violations of this Ordinance. The City shall charge the expenses incurred in doing such work or having work done or improvements made to the owner of record of such property. If such work is done or improvement made at the expense of the City then such expenses shall be assessed as a lien on the real estate upon which such expense was incurred. Subject to applicable law, the City is authorized to enter upon private property at all reasonable hours for the purpose of completing the work necessary for correcting the violations of this section. The Commission may forbear from commencing an action in court for any reason.

F. Upon completion of all repairs that have been agreed upon between the owner and the Commission, that have been ordered by the Commission, or that have been ordered by the court, and upon certification by the Building Commissioner that said repairs have been completed, the Commission shall certify that the Structure is no longer undergoing Demolition by Neglect.

G. The Commission may grant a waiver from the requirements of this Section upon a showing of impossibility, or financial hardship, or the occurrence of events beyond the owner's control, or such other circumstances as the Commission may determine.

H. Nothing in this Ordinance shall be construed to require a property to be renovated or restored to original conditions.

15-20 Administration

The Commission may adopt such rules and regulations as are necessary to administer the terms of this Ordinance.

The Commission is authorized to adopt a schedule of reasonable fees to be borne by an Applicant to cover the costs associated with the administration of this Ordinance.

15-21 Emergency Demolition

Nothing in this Ordinance shall be construed to prevent the demolition of any Building or Structure or portion thereof which the Building Commissioner shall certify is required by public safety because of an unsafe or dangerous condition. However, the Building Commissioner shall endeavor to notify the Commission of his intention to cause or permit such demolition as early as possible.

15-22 Enforcement and Remedies

The provisions of this Section may be enforced by the Commission or the Building

Commissioner, by noncriminal disposition pursuant to M.G.L. c.40, § 21D. II. DEFINITION OF SEXUAL HARASSMENT

III. EXAMPLES OF SEXUAL HARASSMENT

IV. SEXUAL HARASSMENT INVESTIGATION

VI. DISCIPLINARY ACTION

VII. STATE AND FEDERAL REMEDIES

==========

I. POLICY STATEMENT

Sexual harassment creates an unpleasant work environment and hinders good job performance. Not only are the victims of sexual harassment affected by this type of conduct, sexual harassment adversely affects all other employees of the City of Woburn. Sexual harassment undermines the integrity of the workplace and can result in excessive absenteeism, loss of morale, and polarization of staff. It is imperative, therefore, that all employees be sensitive to the effects of their actions.

It is the goal of the City of Woburn to promote a workplace that is free of sexual harassment. Sexual harassment of employees occurring in the workplace or in other settings in which employees may find themselves in connection with their employment is unlawful and will not be tolerated. Further, any retaliation against individuals for cooperating with an investigation of a sexual harassment complaint is similarly unlawful and will not be tolerated. To achieve our goal of providing a workplace free from sexual harassment, the conduct that is described in this policy will not be tolerated and we have provided a procedure by which inappropriate conduct will be dealt with if encountered by employees.

Because the City of Woburn takes allegations of sexual harassment seriously, it will

respond promptly to complaints of sexual harassment and where it is determined that such inappropriate conduct has occurred, it will act promptly to eliminate the conduct and impose such corrective action as is necessary, including disciplinary action where appropriate.

Please note that while this policy sets forth the City of Woburn's goals of promoting a workplace that is free of sexual harassment, the policy is not designed or intended to limit our authority to discipline or take remedial actions for workplace conduct which it deems unacceptable, regardless of whether that conduct satisfies the definition of sexual harassment.

II. DEFINITION OF SEXUAL HARASSMENT

For purposes of this policy and consistent with applicable law, sexual harassment is defined as follows:

Unwelcome sexual advances, request for sexual favors, and other verbal and/or physical conduct of a sexual nature constitute sexual harassment when:

a. submission to such advances, requests, or conduct is made either explicitly or implicitly a term or condition of an individual's employment;
b. submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individuals; or
c. such advances, requests or conduct have the purpose or effect of unreasonably interfering with an individual's work performance by creating an intimidating hostile, humiliating or sexually offensive work environment.

Under these definitions, direct or implied requests by a supervisor for sexual favors in exchange for actual or promised job benefits such as favorable reviews, salary increases, promotions, increased benefits, or continued employment constitutes sexual harassment.

III. EXAMPLES OF SEXUAL HARASSMENT

While it is not possible to list all those additional circumstances that may constitute sexual harassment, the following are some examples of conduct which if unwelcome, may constitute sexual harassment depending upon the totality of the circumstances including the severity of the conduct and its pervasiveness:

Unwelcome sexual advances – whether they involve physical touching or not;
Sexual epithets, jokes, written or oral references to sexual conduct, gossip regarding one's sex life, comment on an individual's body, comment about an individual's sexual activity, deficiencies or prowess;
Displaying sexually suggestive objects, pictures, cartoons;

Unwelcome leering, whistling, brushing against the body, sexual gestures, suggestive or insulting comments;
Inquiries into one's sexual experiences; and,
Discussion of one's sexual activities.

All employees should take special note that, as stated above, retaliation against an individual who has complained about sexual harassment, and retaliation against individuals for cooperating with an investigation of a sexual harassment complaint is unlawful and will not be tolerated by this organization.

IV. SEXUAL HARASSMENT INVESTIGATION

If any city employee believes that he or she has been subjected to sexual harassment, the employee has the right to file a complaint. This may be done in writing or orally. If you would like to file a complaint you may do so by contacting the Mayor, or his designee, City Hall, 10 Common Street, Woburn, MA 01801, (617) 932-4501, who is available to discuss any concerns you may have and to provide information to you about our policy on sexual harassment and our complaint process.

V. SEXUAL HARASSMENT INVESTIGATION

The Mayor or his designee will promptly investigate the allegation in a fair and expeditious manner. The investigation will include a private interview with the person filing the complaint and with witnesses. The investigation will also include an interview with the person alleged to have committed sexual harassment. When the investigation is completed the Mayor or his designee to the extent appropriate, will inform the person filing the complaint and the person alleged to have committed the conduct of the results of that investigation.

If it is determined that inappropriate conduct has occurred, prompt action will be taken to eliminate the offending conduct, and where it is appropriate, disciplinary action will be taken.

VI. DISCIPLINARY ACTION

If it is determined that inappropriate conduct has been committed by a city employee, the Mayor or his designee will take such action as is appropriate under the circumstances. Such action may range from counseling to termination from employment, and may include such other forms of disciplinary action as is deemed appropriate under the circumstances.

VII. STATE AND FEDERAL REMEDIES

In addition to the above, if you believe you may have been subject to sexual harassment, you may file a formal complaint with either or both of the government agencies set forth

below. Using the City of Woburn's complaint process does not prohibit you from filing a complaint with these agencies. Each of the agencies has a short time period for filing a claim (EEOC – 180 days; MCAD – 6 months).

B. In compliance with the provisions of the Americans with Disabilities Act, the above Public Notice shall be posted in prominent locations in public buildings and also in short form on all brochures and public information materials.

18-2 Equal Employment Opportunity And Reasonable Accommodation Policies

1. The City of Woburn does not discriminate against qualified applicants and employees on the basis of disability in any terms, conditions or privileges of employment. A qualified applicant or employee is one who can perform essential functions of a job with or without reasonable accommodation.

   A. Upon request, the City will provide reasonable accommodation to employees and applicants with disabilities when doing so does not pose an undue financial or administrative hardship.

   B. Job applicants are not required to provide information about disabilities or accommodations required until a conditional job offer is made. Interviewing managers are prohibited from requesting information about any disabilities or accommodations required until making a conditional job offer. However, a job applicant who chooses to do so, may submit written requests for reasonable accommodation to the ADA Coordinator prior to the conditional job offer. Or, after the job offer is made to the applicant, he or she should submit a written request to the supervisor offering the job or to the ADA Coordinator. Employees who require accommodations should submit written requests for reasonable accommodation to his or her immediate supervisor. Requests for reasonable accommodation should contain a description of the

nature and purpose of the accommodation being requested. If an applicant or employee is unsure of the type of accommodation required, that individual, the ADA Coordinator and the individual's immediate supervisor and/or Department Head shall work collaboratively to design an accommodation. The request for reasonable accommodation should be accompanied by supporting documentation from a health care professional. This documentation should state that the employee in question has a disability that substantially limits one or more major life activities and requires reasonable accommodation. Copies of requests for reasonable accommodation together with supporting documentation should be forwarded to the ADA Coordinator by the employee's supervisor.

C. Supervisors/Department Heads may grant requests for reasonable accommodation, but may not deny them. Only the ADA Coordinator in concert with the Mayor and/or City Council may determine that a proposed accommodation constitutes an undue hardship. Qualified applicants and employees have the right to file a grievance upon denial of reasonable accommodation, using the City's ADA grievance procedure.

D. It is the policy of the City of Woburn to segregate medical and personnel records. Medical records shall be stored in a separate location from personnel records. Medical records include but are not limited to: documentation of illness, injury, short or long-term disability, reasonable accommodation requests, doctor's letters and certificates, Family and Medical Leave Act documentation and insurance information. Access to medical records shall be provided on a "needs to know basis" with authorization from the Director of Human Resources or the ADA Coordinator or from the individual employee by written, signed release.

18-3 ADA Coordinator

As designated in Title 2, Article VII, Section 41(15), the City of Woburn Director of Human Resources shall be the City's ADA Coordinator. The ADA Coordinator will direct the City's compliance with the Americans with Disabilities Act. The ADA Coordinator shall receive and investigate grievances and requests for accommodations and assistance under said Act and as detailed in this Title.

18-4 ADA Grievance Procedure

A. This Grievance Procedure is established to meet the requirements of the Americans with Disabilities Act. Disabled individuals or their authorized representatives, who believe that they have been discriminated against on the basis of disability in employment, or the provision of services, activities,

programs, or benefits, are requested to use it to bring their complaints to the attention of the City.

B. The complaint should be submitted in writing or on audiotape to the ADA Coordinator. It should include a description of the alleged discriminatory incident or action, the place and date of its occurrence, and the name of any employee or representative of the City involved. The complaint should also include the name, address, and phone number of the person(s) bringing the complaint or their authorized representative(s). If assistance is needed to file or pursue the complaint, the ADA Coordinator upon request will provide it. The complaint should be submitted as soon as possible but no later than sixty (60) calendar days after the alleged discriminatory incident to the Director of Human Resources, City of Woburn, City Hall, Ten Common Street, Woburn, MA 01801.

C. Within fifteen (15) calendar days of its receipt, the ADA Coordinator will meet with the complainant to clarify the facts of the incident and discuss possible resolutions. Within fifteen (15) calendar days after the meeting, the ADA Coordinator will respond in writing, or if needed for Effective Communication, in an alternate format preferred by the complainant, such as large print, Braille, or audiotape. The response will explain the position of the City and present options for substantive resolution of the complaint.

D. If the ADA Coordinator's response does not satisfactorily resolve the issue, the complainant may appeal the Coordinator's decision within fifteen (15) calendar days of its receipt to the Mayor, or his or her designee. Within fifteen (15) calendar days of the receipt of the appeal, the Mayor, or his or her designee, will meet with the complainant to further clarify the complaint and discuss possible resolutions. Within fifteen (15) calendar days of the meeting the Mayor, or his or her designee, will respond in writing or alternate format with a final resolution of the complaint.

E. Records of all complaints received by the ADA Coordinator and appeals to the Mayor will be kept on file for at least three (3) years.

18-5 Equal Opportunity Policy

No qualified person with a disability shall be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any of the City's programs or activities. In providing its services, programs, and activities, the City will not:

1. Deny a qualified individual with a disability the opportunity to participate in, or benefit from, an offered benefit, service, or activity.

2. Deny a qualified individual with a disability the opportunity to participate in, or benefit from, any aid, benefit, or service that is not equal to that afforded to others.

3. Otherwise limit a qualified individual with a disability the enjoyment of any right, privilege, advantage, or opportunity enjoyed by other qualified individuals receiving the aid, benefit, or service.

18-6 Reasonable Modification Policy

A. The City will make reasonable modifications to policies and procedures necessary to accommodate the needs of a person with a disability whenever an otherwise qualified person with a disability requests such modification, unless it can be demonstrated that the requested modification would impose an undue burden or fundamental alteration to the program.

B. Requests for reasonable modifications should be made to program staff or the ADA Coordinator and can be presented verbally or in writing. It is the responsibility of the ADA Coordinator to ensure that requests are responded to appropriately and in a timely fashion.

C. Final decisions regarding requests for reasonable modifications, that in the opinion of the ADA Coordinator may represent an undue burden or fundamental alteration, will be made by the Mayor in a timely fashion and no longer than ten (10) working days. Individuals seeking to contest a denial of a request for reasonable modification will be given the grievance procedure in format appropriate to their needs.

18-7 Eligibility And Safety Requirements Assurance

A. It is the policy of the City that prohibitions or limitations to the eligibility of qualified individuals with disabilities to receive services or participate in programs are not allowed unless they are essential to the operation of the program or service. Eligibility requirements have been reviewed by the ADA Coordinator and program managers and updated to comply with the requirements of the Americans with Disabilities Act. Whenever programs formulate new eligibility policies or new programs are developed, policies will be reviewed by the ADA Coordinator to ensure compliance.

B. Safety requirements have also been reviewed to ensure that they are necessary to the safe operation of programs, and that any decisions to limit the participation of a person with a disability related to safety concerns will be reviewed on a case basis to ensure that the decision is based on facts, not myths or stereotypes, and that all appropriate mitigating measures are taken to

provide for maximum participation. Staff will be informed of, and trained in any changes in eligibility and/or safety requirements that may arise.

18-8 Surcharges Prohibition Policy

It is the policy of the City that surcharges will not be charged to persons with disabilities, their family members, or organizations representing them for the provision of reasonable accommodations, reasonable modifications to policies and procedures, auxiliary aids and services, or any other costs related to the participation of persons with disabilities.

18-9 Integrated Services Policy

It is the policy of the City that all services, programs, and activities are provided in the most integrated setting appropriate to the needs of participants with disabilities. Persons with disabilities are not required to participate in separate programs even if separate programs specifically designed to meet their needs are offered.

18-10 Significant Assistance Policy

It is the policy of the City that programs receiving significant assistance, either financial or in-kind from the City, may not discriminate against persons with disabilities. 18-11 Accessible Transportation Policy

It is the policy of the City that transportation services are accessible to and usable by participants in City programs regardless of disability. Individuals requiring accessible transportation should make their requests in writing or verbally to the program directors or alternatively to the ADA Coordinator. Requests should be made at least three (3) days in advance. Effort will be made to respond to requests made on shorter notice. When a request cannot be met, notice will be given as soon as possible and at least one (1) day before the date of the requested trip.

18-12 Contracted Services Provider Policy

It is the policy of the City that if services are provided under contracts, the City will

set forth in the terms of the contract the obligations of the provider agency or agencies to operate in a manner consistent with the requirements of Title II of the ADA, and, furthermore, that the City will monitor the performance of the contractor in fulfilling this contractual obligation.

18-13 Effective Communication Policy

A. It is the policy of the City that auxiliary aids and services will be provided when necessary to ensure effective communication with persons whose disabilities affect communication. Persons with communications disabilities will be given the opportunity to request the aid or service that they prefer and the requested aid or service will be given primary consideration. The preferred means of communication will be provided unless doing so would impose an undue burden or an effective alternative means of communication is available.

B. Requests for auxiliary aids or services should be made verbally or in writing to program directors or to the ADA Coordinator. Unless otherwise specified, the City urges that requests be made at least ten (10) days in advance of the occasion on which the communications support will be needed. Reasonable effort will be made to respond on shorter notice.

C. The person requesting the service will be notified as soon as possible if the City is unable to meet their request. In some circumstances, an appropriate alternative will be offered such as rescheduling. It will be the responsibility of the ADA Coordinator to train staff and oversee implementation of effective communications procedures. The Mayor will be responsible for making final decisions related to undue burden or fundamental alteration.

18-14 Alternative Format Assurance And Procedures

A. All documents, publications, and materials used in City programs will be made available to persons with disabilities who need them in alternate formats. Procedures have been established to respond to requests for alternate formats including large print, audiotape, Braille, and computer diskettes in a timely fashion. Three (3) weeks notice is generally required for the preparation of Braille materials. Reasonable efforts will be made to respond on shorter notice.

B. Large print, short audio tapes, and computer diskettes will be prepared by staff persons who have been identified by the ADA Coordinator and trained in the necessary skills and procedures. Preparation of long audiotapes will be purchased from a professional provider.

C. The procedure for requesting alternate formats is:

1. The person making the request should identify the materials desired and specify his/her preferred alternate format to the program director or the ADA Coordinator, either verbally or in writing ten (10) working days in advance of the event or activity for which the material is needed. Reasonable effort will be made to meet requests made less than ten (10) days before an event or activity.

2. The materials will be provided in the requested format at no additional charge.

3. Primary consideration will be given to the format preferred by the person making the request, and the City will decide whether to provide the preferred format or an effective alternate format.

4. If a request cannot be met the person making the request will be informed as soon as possible but at least one (1) day in advance of the event or activity.

5. The Mayor will make the final decision regarding any request that may represent an undue financial or administrative burden.

18-15 Interpreter Services Policy

A. It is the policy of the City that sign language interpreters, will be provided upon request to any person needing interpreter services in order to participate in any meeting, program, or activity of the City. Requests should be generally made at least twenty (20) working days in advance of the scheduled event or meeting, but reasonable effort will be made to meet requests made on shorter notice. Requests should be made either verbally, by TTY, or in writing to a program director or the ADA Coordinator. Within one (1) day of receipt of the request, the ADA Coordinator or other responsible employee will contact the Massachusetts Commission for the Deaf and Hard of Hearing (MCDHH) to schedule the interpreter service.

B. In addition to using the MCDHH, the City maintains a list of names and phone numbers of at least three qualified freelance sign language interpreters working in the region. If informed that MCDHH has not been successful in scheduling interpreters as requested, staff of the City will immediately attempt to contact and schedule a freelance interpreter.

B. The procedure for requesting an assistive listening device is for the person needing the device, or his or her representative, to make the request verbally or in writing to the ADA Coordinator or other program director at least ten (10) days before the scheduled event or activity will take place. Reasonable effort will be made to meet requests made with less than ten (10) days notice.

3. The Mayor, subject to City Council confirmation, may appoint up to two alternate members to the COMMISSION. Each alternate member shall have the right to act and vote in the place of one regular member should such regular member be absent from a meeting or be unwilling or unable due to conflict of interest to act or vote. Said alternate member(s) shall be appointed for terms of three years.

4. Each member and alternate member shall continue to serve in office after the expiration date of his or her term until a successor is duly appointed and qualified.

5. Meetings of the COMMISSION shall be held at the call of the Chairman, at the request of two members and in such other manner as the COMMISSION shall determine in its Rules and Regulations.

6. Four members of the COMMISSION shall constitute a quorum.

19-5 Commission Powers and Duties

1. The COMMISSION shall exercise its powers in administering and regulating the CONSTRUCTION and ALTERATION of any STRUCTURES or BUILDINGS within the DISTRICT as set forth under the procedures and criteria established in this Title. In exercising its powers and duties hereunder, the COMMISSION

shall pay due regard to the distinctive characteristics of each BUILDING, STRUCTURE and DISTRICT area.

2. The COMMISSION may adopt, and from time to time amend, reasonable Rules and Regulations not inconsistent with the provisions of this Title or M.G.L. Chapter 40C, setting forth such forms and procedures as it deems desirable and necessary for the regulation of its affairs and the conduct of its business, including requirements for the contents and form of applications for CERTIFICATES, fees, hearing procedures and other matters. The COMMISSION shall file a copy of any such Rules and Regulations with the office of the City Clerk.

3. The COMMISSION, after a public hearing duly posted and advertised at least 14 days in advance in a conspicuous place in City Hall and in a newspaper of general circulation, may adopt and from time to time amend guidelines which set forth the designs for certain EXTERIOR ARCHITECTURAL FEATURES which are, in general, suitable for the issuance of a CERTIFICATE. No such design guidelines shall limit the right of an applicant for a CERTIFICATE to present other designs to the COMMISSION for approval.

4. The COMMISSION shall at the beginning of each calendar year hold an organizational meeting and elect a Chairman, a Vice Chairman and Secretary, and file notice of such election with the office of the City Clerk.

5. The COMMISSION shall keep a permanent record of its resolutions, transactions, decisions and determinations and of the vote of each member participating therein.

6. The COMMISSION shall undertake educational efforts to explain to the public and property owners the merits and functions of a DISTRICT.

19-6 Alterations and Construction Prohibited Without a Certificate

1. Except as this Title provides, no BUILDING or STRUCTURE or part thereof within a DISTRICT shall be CONSTRUCTED or ALTERED in any way that affects the EXTERIOR ARCHITECTURAL FEATURES as visible from a public way, unless the COMMISSION shall first have issued a CERTIFICATE with respect to such CONSTRUCTION or ALTERATION.

2. No building permit for CONSTRUCTION of a BUILDING or STRUCTURE or for ALTERATION of an EXTERIOR ARCHITECTURAL FEATURE within a DISTRICT and no demolition permit for demolition or removal of a BUILDING or STRUCTURE within a DISTRICT shall be issued by the City of Woburn or any

department thereof until a CERTIFICATE as required under this Title has been issued by the COMMISSION.

19-7 Procedures for Review of Applications

1. Any person who desires to obtain a CERTIFICATE from the COMMISSION shall file with the COMMISSION an application for a CERTIFICATE of Appropriateness, of Non-Applicability or of Hardship, as the case may be. The application shall be accompanied by such plans, elevations, specifications, material and other information, including in the case of demolition or removal a statement of the proposed condition and appearance of the property thereafter, as may be reasonably deemed necessary by the COMMISSION to enable it to make a determination on the application.

2. The COMMISSION shall determine within fourteen (14) days of the filing of an application for a CERTIFICATE whether said application involves any EXTERIOR ARCHITECTURAL FEATURES which are within the jurisdiction of the COMMISSION.

3. If the COMMISSION determines that an application for a CERTIFICATE does not involve any EXTERIOR ARCHITECTURAL FEATURES, or involves an EXTERIOR ARCHITECTURAL FEATURE which is not subject to review by the COMMISSION under the provisions of this Title, the COMMISSION shall forthwith issue a CERTIFICATE of Non-Applicability.

4. If the COMMISSION determines that such application involves any EXTERIOR ARCHITECTURAL FEATURE subject to review under this Title, it shall hold a public hearing on the application, except as may otherwise be provided in this Title. The COMMISSION shall hold such a public hearing within forty-five (45) days from the date of the filing of the application. At least fourteen (14) days before said public hearing, public notice shall be given by posting in a conspicuous place in City Hall and in a newspaper of general circulation in Woburn. Such notice shall identify the time, place and purpose of the public hearing. Concurrently, a copy of said public notice shall be mailed to the applicant, to the owners of all adjoining properties and of other properties deemed by the COMMISSION to be materially affected thereby, all as they appear on the most recent applicable tax list, to the Planning Board, to any person filing a written request for notice of hearings, such request to be renewed yearly in December, and to such other persons as the COMMISSION shall deem entitled to notice.

   A. A public hearing on an application for a CERTIFICATE need not be held if such hearing is waived in writing by all persons entitled to notice thereof. In addition, a public hearing on an application for a CERTIFICATE may be

waived by the COMMISSION if the COMMISSION determines that the EXTERIOR ARCHITECTURAL FEATURE involved, or its category, is so insubstantial in its effect on the DISTRICT that it may be reviewed by the COMMISSION without a public hearing. If the COMMISSION dispenses with a public hearing on an application for a CERTIFICATE, notice of such application shall be given to the owners of all adjoining property and of other property deemed by the COMMISSION to be materially affected thereby as above provided, and ten (10) days shall elapse after the mailing of such notice before the COMMISSION may act upon such application.

5. Within sixty *(60)* days after the filing of an application for a CERTIFICATE, or within such further time as the applicant may allow in writing, the COMMISSION shall issue a CERTIFICATE or a disapproval. In the case of a disapproval of an application for a CERTIFICATE, the COMMISSION shall set forth in its disapproval the reasons for such disapproval. The COMMISSION may include in its disapproval specific recommendations for changes in the applicant's proposal with respect to the appropriateness of design, arrangement, texture, material and similar features which, if made and filed with the COMMISSION in a subsequent application, would make the application acceptable to the COMMISSION.

6. The concurring vote of a majority of the members present shall be required to issue a CERTIFICATE.

7. In issuing CERTIFICATES, the COMMISSION may, as it deems appropriate, impose certain conditions and limitations, and may require architectural or plan modifications consistent with the intent and purpose if this Title.

8. If the COMMISSION determines that the CONSTRUCTION or ALTERATION for which an application for a CERTIFICATE of Appropriateness has been filed will be appropriate for or compatible with the preservation or protection of the DISTRICT, the COMMISSION shall issue a CERTIFICATE of Appropriateness.

9. If the CONSTRUCTION or ALTERATION for which an application for a CERTIFICATE of Appropriateness has been filed shall be determined to be inappropriate and therefore disapproved, or in the event of an application for a CERTIFICATE of Hardship, the COMMISSION shall determine whether, owing to conditions especially affecting the BUILDING or STRUCTURE involved, but not affecting the DISTRICT generally, failure to approve an application will involve a substantial hardship, financial or otherwise, to the applicant and whether such application may be approved without substantial detriment to the public welfare and without substantial derogation from the intent and purposes of this Title. If the COMMISSION determines that owing to such conditions failure to approve an application will involve substantial hardship to the applicant

and approval thereof may be made without such substantial detriment or derogation, the COMMISSION shall issue a CERTIFICATE of Hardship.

10. The COMMISSION shall send a copy of its CERTIFICATES and disapprovals to the applicant and shall file a copy of its CERTIFICATES and disapprovals with the office of the City Clerk and the Building Commissioner. The date of issuance of a CERTIFICATE or disapproval shall be the date of the filing of a copy of such CERTIFICATE or disapproval with the office of the City Clerk.

11. If the COMMISSION should fail to issue a CERTIFICATE or a disapproval within sixty (60) days of the filing of the application for a CERTIFICATE, or within such further time as the applicant may allow in writing, the COMMISSION shall thereupon issue a CERTIFICATE of Hardship Due to Failure to Act.

12. Each CERTIFICATE issued by the COMMISSION shall be dated and signed by its chairman or such other person designated by the COMMISSION to sign such CERTIFICATES on its behalf.

13. A PERSON AGGRIEVED by a determination of the COMMISSION may, within twenty (20) days of the issuance of a CERTIFICATE or disapproval, file a written request with the COMMISSION for a review by a person or persons of competence and experience in such matters, acting as arbitrator and designated by the regional planning agency. The finding of the person or persons making such review shall be filed with the City Clerk within forty-five (45) days after the request, and shall be binding on the applicant and the COMMISSION, unless a further appeal is sought in the Superior Court as provided in Chapter 4OC, Section 12A. The filing of such further appeal shall occur within twenty (20) days after the finding of the arbitrator has been filed with the office of the City Clerk.

19-8 Criteria for Determinations

1. In deliberating on applications for CERTIFICATES, the COMMISSION shall consider, among other things, the historic and architectural value and significance of the site, BUILDING or STRUCTURE; the general design, proportions, detailing, mass, arrangement, texture, and material of the EXTERIOR ARCHITECTURAL FEATURES involved; and the relation of such EXTERIOR ARCHITECTURAL FEATURES to similar features of BUILDINGS and STRUCTURES in the surrounding area.

2. In the case of new CONSTRUCTION or additions to existing BUILDINGS or STRUCTURES, the COMMISSION shall consider the appropriateness of the scale, shape and proportions of the BUILDING or STRUCTURE both in relation to the land area upon which the BUILDING or STRUCTURE is situated and in

relation to BUILDINGS and STRUCTURES in the vicinity. The COMMISSION may in appropriate cases impose dimensional and setback requirements in addition to those required by applicable statute or ordinance.

3. When ruling on applications for CERTIFICATES on solar energy systems as defined in Section IA of Chapter 40A, the COMMISSION shall consider the policy of the Commonwealth of Massachusetts to encourage the use of solar energy systems and to protect solar access.

4. The COMMISSION shall not consider interior arrangements or architectural features not subject to public view from a public way.

19-9 Exclusions

The COMMISSION shall exclude from its purview the following:

1. A. Temporary BUILDINGS, STRUCTURES or SIGNS subject, however, to conditions pertaining to the duration of existence and use, location, lighting, removal and similar matters as the COMMISSION may reasonably specify

G. The reconstruction, substantially similar in exterior design, of a BUILDING, STRUCTURE or EXTERIOR ARCHITECTURAL FEATURE damaged or destroyed by fire, storm or other disaster, provided such reconstruction is begun within one year thereafter and carried forward with due diligence.

2. Upon request the COMMISSION shall issue a CERTIFICATE of Non-Applicability with respect to CONSTRUCTION or ALTERATION in any category not subject to review by the COMMISSION in accordance with the above provisions.

3. Nothing in this Title shall be construed to prevent the ordinary maintenance, repair or replacement of any EXTERIOR ARCHITECTURAL FEATURE within a DISTRICT which does not involve a change in design, material or the outward appearance thereof, nor to prevent landscaping with plants, trees or shrubs, nor construed to prevent the meeting of requirements certified by a duly authorized public officer to be necessary for public safety because of an unsafe or dangerous condition, nor construed to prevent any CONSTRUCTION or ALTERATION under a permit duly issued prior to the effective date of this Title.

19-10 Categorical Approval

The COMMISSION may determine from time to time after a public hearing, duly advertised and posted at least fourteen (14) days in advance in a conspicuous place in City Hall and in a newspaper of general circulation in Woburn, that certain categories of EXTERIOR ARCHITECTURAL FEATURES, STRUCTURES or BUILDINGS under certain conditions may be CONSTRUCTED or ALTERED without review by the COMMISSION without causing substantial derogation from the intent and purpose of this Title.

19-11 Enforcement and Penalties

1. The COMMISSION shall determine whether a particular activity is in violation of this Title or not, and the COMMISSION shall be charged with the enforcement of this Title.

2. The COMMISSION, upon a written complaint of any resident of Woburn, or owner of property within Woburn, or upon its own initiative, shall institute any appropriate action or proceedings in the name of the City of Woburn to prevent, correct, restrain or abate violation of this Title. In the case where the COMMISSION is requested in writing to enforce this Title against any person allegedly in violation of same and the COMMISSION declines to act, the COMMISSION shall notify, in writing, the party requesting such enforcement of any action or refusal to act and the reasons therefore, within twenty one (21) days of receipt of such request.

3. Whoever violates any of the provisions of this Title shall be punishable by a fine of up to $300.00 for each offense. Each day during any portion of which such violation continues to exist shall constitute a separate offense.

4. The COMMISSION may designate the Building Commissioner of the City of Woburn to act on its behalf and to enforce this Title under the direction of the COMMISSION.

19-12 Validity and Separability

The provisions of this Title shall be deemed to be separable. If any of its provisions, sections, subsections, sentences or clauses shall be held to be invalid or unconstitutional by any court of competent jurisdiction, the remainder of this Title shall continue to be in full force and effect.

The livelihoods of those who produce, transport or purchase products and materials depend on accurate measurement of the weights and volumes of those goods. The Sealer of Weights & Measures is responsible for seeing that scales, meters and other measuring devices in commercial use perform properly, and that business practices protect the interests of all parties, thereby promoting an atmosphere conducive to equity in the marketplace and fair business competition.

The Sealer of Weights & Measures shall be appointed by the Mayor for a term of two years, during which time the appointee shall enforce the laws pertaining to weighing and measuring devices and shall have the power to issue fines and warnings, under MGL Ch.98, Section 29A, for the giving of false or insufficient measure.

The Sealer of Weights and Measures shall be a part of the Engineering Department and report to the City Engineer.

The sealer shall receive a salary as determined by the City Council and shall also receive an additional allowance for transportation and other necessary expenses. The sealer shall account for and pay into the City Treasurer monthly all fees received and shall make an annual report to the City Council.

The sealer shall be certified by the Commonwealth within one year of assuming the powers and duties of office. Failure to become certified within one year shall be cause for termination. A sealer who has passed a Civil Service examination for the position of sealer of weights and measures shall be exempt from certification requirements. Notwithstanding any certification exemption, the sealer appointee shall participate in continuing training and education programs, the cost of which shall be paid by the City.

- Must be certified by the Commonwealth of Massachusetts within one year of initial appointment as a weights and measures official, unless appointed under Civil Service.

- Must attain thirty hours of approved continuing education every two years after receiving initial certification as a weights and measures official.

20-4 Duties and Responsibilities

The Sealer of Weights and Measures shall undertake the following duties and responsibilities:

- Inspect all commercial weighing and measuring devices designated as “legal for trade” to assure that they are maintained within acceptable tolerances as defined by State and federal law. These devices include: mechanical and electronic weighing devices found

  in supermarkets, delicatessens, bakeries, groceries and eating places, computerized retail scanning devices, reverse vending machines (can & bottle returns), apothecary scales, balances and weights, taximeters, retail fuel pumps dispensing gasoline and diesel, oil truck meters, wire, rope, cordage, linear measures such as yardsticks and tape.

The City shall be furnished by the Commonwealth with a set of the above referenced standards and shall keep the meter and kilogram and the standard troy weights designated by the Commonwealth. The City shall provide accessible places for the safe and suitable keeping and preservation of the standards supplied by the Commonwealth, which shall be used only as standards. The sealer of weights and measures shall have the care and oversight of said standards, shall see that they are kept in good order and repair and, if any are lost, destroyed or damaged beyond repair, shall see that they are replaced, at the City's expense.

The sealer of weights and measures may, upon request to the State Director of Standards, obtain a duplicate set of apothecaries' weights and apothecaries' liquid measures to be used as standards. Such duplicate set will be obtained at the expense of the City.

The sealer of weights and measures shall receive from the City a set of standards and a seal, and shall give a receipt therefore, stating their condition when received and shall be accountable for the preservation in like condition.

20-6 Enforcement and Penalties

The sealer of weights and measures shall annually give public notice, by advertisement or by posting notices in one or more public places in the City, to all inhabitants or persons having usual places of business in the City, using weighing or measuring devices for the purpose of buying or selling goods, wares or merchandise, for public weighing, to bring those devices in to be tested, adjusted and sealed.

After giving said notice, the sealer of weights and measures shall go to the houses, shops, stores, vehicles or other commercial premises, during normal business hours, of a person not complying therewith, and shall test and adjust, seal or condemn in accordance with the results of such tests, the weighing and measuring devices of such person. No person shall use for weighing and/or measuring any device which has not been so tested and sealed. Devices used for the measuring of leather shall be tested semi-annually. When a vehicle tank used in the sale of

commodities by liquid measure has once been sealed, it shall not be necessary to seal that tank again while it remains in the same condition as when first sealed.

Any person who hinders, obstructs or in any way interferes with the sealer of weights and measures in the performance of duty shall be punished by a fine of not more than five hundred dollars for the first offence and a fine of not more than one thousand dollars for each subsequent offence, or shall be subject to a civil citation or order.

The sealer of weights and measures shall test all weighing or measuring devices having a device for indicating or registering the price as well as the weight or measure of a commodity offered for sale as to the correctness of both weights or measures and values indicated by such devices.

All devices used upon vehicles for determining the cost of transportation shall be tested as to the correctness of measures and values indicated by them. Any owner or operator of a taxicab or other vehicle who refuses or neglects to comply with any rule or regulation so made shall be punished by a fine of one hundred dollars or shall be subject to a civil citation.

Apothecaries and other persons dealing in or dispensing drugs, medicines or merchandise sold, dispensed or given away by apothecaries' liquid measure, shall, at least annually, cause the weights and measures so used to be tested by the sealer of weights and measures. A graduated glass measure, once sealed by the sealer of weights and measures or manufacturer, need not be again sealed while remaining in the same condition as when first sealed. Whoever sells or dispenses drugs, medicines or merchandise requiring the use of apothecaries' weights or apothecaries' liquid measures or in the sale of which they are commonly used, and does not have such weights and measures tested and sealed shall be punished by a fine of not more than fifty dollars or shall be subject to a civil citation.

The sealer of weights and measures shall go at least once a year to each hay and coal scale and other weighing or measuring device in the City that is not easily or conveniently removed, and shall test, adjust and seal or condemn them.

The sealer of weights and measures shall, in every 24-month period, examine and test the operation of all automated retail checkout systems, in all establishments with three or more cash registers, and shall upon complaint examine and test the operation of any automated retail checkout system to determine whether the price for which an item is offered or advertised for sale, including any advertised special price offered to a customer with a store-issued discount card, conforms to the unit and/or net prices displayed to the customer on the visual display and conforms to the price for which a purchaser is charged by such automated retail checkout

system to determine whether the total price for items purchased is correctly represented. If such examination and test reveals that there is evidence of price misrepresentation, or misleading or deception of the purchaser of items, the owner, manager or designee of the owner or manager of the retail establishment using such automatic checkout system shall be punished for the first offense by a fine of one hundred dollars, for the second offense by a fine of two hundred fifty dollars, and for a subsequent offense by a fine of five hundred dollars. Notwithstanding the method for determining the amount of civil fines, a civil citation may be issued for one hundred dollars for each violation, up to a maximum of two thousand five hundred dollars per inspection. An automated retail checkout system shall mean a cash register, computer, terminal, or other device capable of interpreting the universal product code, or any other code which is on an item offered for sale to consumers used to determine the price of the item being purchased, regardless of whether the code entry is accomplished manually or automatically by a machine.

Whoever uses any weighing or measuring devices may have them tested by the sealer of weights and measures at any time upon request and the sealer of weights and measures shall seal or condemn the same in accordance with the results of said tests.

If a person informs the sealer that he has reasonable cause to believe, or if the sealer has reasonable cause to believe, that any weighing or measuring device used in the sale of a commodity in the City is incorrect, the sealer shall go where it is and shall test and mark it according to the result of the test. If the device is incorrect and cannot be adjusted, the sealer shall attach thereto a notice of that fact forbidding its use until it conforms to the authorized standard. If the sealer has reasonable cause to believe that any weighing or measuring device has been altered since last adjusted and sealed, he shall enter the premises where the device is kept or used and examine it. Whoever uses a weighing or measuring device after refusing permission to the sealer to test it or who has in his possession any weighing or measuring device that has been altered for fraudulent purposes since last adjusted and sealed shall be punished by a fine of not less than five hundred nor more than one thousand dollars.
If the sealer of weights and measures cannot seal any weighing or measuring device in the usual manner, he may mark it with a stencil or by other suitable means, showing that it has been inspected. If a weighing or measuring device is so small as to render it impracticable to seal it in the usual manner, he shall give a certificate in a form approved by the commonwealth, specifying each weighing or measuring device so tested. He shall in no case seal or mark as correct any weighing or measuring device not conforming to the standards. If such a weighing or measuring device can be readily adjusted by means at hand, the sealer may adjust and seal it; but if not, he shall affix thereto a notice forbidding its use until he is satisfied that it conforms to the standards. Whoever removes said notice without

the consent of the sealer of weights and measures shall be liable to a fine of not more than five hundred dollars.

The sealer of weights and measures may seize without a warrant any weighing or measuring devices necessary to be used as evidence in cases of violation of the ordinances relative to the sealing thereof, and they shall be returned to the owners or forfeited, as the court directs.

The sealer of weights and measures may seize weighing or measuring devices not conforming to legal standards or not sealed as required by law. A person having in his possession such weighing or measuring devices, with intent to use them in violation of law, shall be punished by a fine of not more than five hundred dollars or shall be subject to a civil citation, and such devices, upon order of the court, shall be destroyed. Possession thereof shall be prima facie evidence of intention to use them in violation of law.

The City shall annually, between January 1 and January 31, submit to the commonwealth a written report that describes the City's weights and measures program, including, but not limited to, an inventory of all weighing and measuring devices and equipment and the date of the most recent certification for each device or piece of equipment, inspection results by category, results of tests performed, total number of citations issued by category, the net loss restore to merchants and consumers as a result if the enforcement program, and any other information required by the state director.

Whoever places a scale or weighing device when used in weighing food sold at retail by weight in the presence of the purchaser so that the weight indicator may not be read and the weighing operations be observed by the purchaser shall be punished by a fine of fifty dollars or be subject to a civil citation.

Whoever being engaged in the business of selling prepackaged meat, poultry or edible fish at retail refuses or neglects to provide each outlet where said products are sold with a computing scale or refuses to reweigh a prepackaged item of meat, poultry or edible fish in the presence of a prospective purchaser, when so requested, shall be punished by a fine of not less than one hundred dollars and shall be subject to a civil citation. A computing scale shall be deemed one that indicates the money values of a commodity weighed at predetermined unit prices throughout all or part of the weighing range of the scale. Prepackage meat, poultry of edible fish shall not include canned meat, poultry or edible fish, prepackaged cold cuts or other processed meats, or poultry or fish packaged off the premises and labeled with the net quantity of contents.

Whoever maintains a cash register or other mechanical device at a counter for totaling the monetary value of customer purchases at retail which is so hidden or in

such a position that the total cannot be observed by the customer shall be punished by a fine of fifty dollars or be subject to a civil citation.

Violations of this ordinance may be enforced by the Sealer of Weights and Measures and the City Engineer of the City of Woburn, by any available means in law or equity, including but not limited to enforcement by non-criminal disposition pursuant to G.L. c. 40, §21D and Sections 1-17 and 1-18 of the City Ordinances.
