

Trail Intersection Marking Project at Horn Pond

Phase 2 map

This Phase 2 map represents a collaborative effort between present and former Woburn residents and the Woburn Conservation Commission to improve the marking and mapping of trails at Horn Pond.

- **Numbered intersections (posts).** Wooden posts* are placed at major trail intersections, which correspond to numbered positions on this map. (*Except 24-26: see note on map.)
- **Additional posts.** Along the two Memorial Trails, several additional posts are placed to help guide your path. These have no numbers, but are marked with either red or orange bands (or both), along with directional arrows.
- **New map forthcoming.** A more formal new map and guide for the entire area will later be created, which will mark the completion of this project. The newer map will replace this 'Phase 2 map' in the link which appears below, and will also be posted in the kiosks. This newer map will take some time to complete.
- **Get this map.** Visit www.woburnma.gov/government/conservation/horn-pond-trail-map/ to download a copy.
